

The Yun Family's Ninth Child is an Imp! Chapter 3355

Imperial chancellor Liu hoped that Yun chujiu would be struck to death by the Heavenly Lightning. However, he did not dare to take the risk. It would be terrible if she really went to his majesty.

Therefore, he went to find Mu Xuan.

“Your Majesty, it seems that the female emperor of Fenghua has really been punished by the Divine Phoenix. Why don't we call off the engagement and think of another way to annex the East Phoenix Kingdom?”

Although Mu Xuan felt that it was a pity to abandon the plan halfway, he thought that if the female emperor really married the crown prince and the Heavenly Thunder accidentally killed the crown prince, then he would really lose more than he gained!

He gritted his teeth and said, “Forget it! Anyway, the East Phoenix Kingdom is only a small place. We can just find an excuse to attack it and draft an edict to take back the Order!”

Imperial Chancellor Liu did not dare to be negligent and immediately scribbled on a letter of the imperial decree. The main idea was to just call off the previous engagement and so on. He then hurriedly ran to a place a few hundred Zhang away from Yun Chujiu.

“Your Majesty Fenghua, our country's emperor has already called off the engagement. You should quickly leave the Imperial Palace!” Imperial Chancellor Liu said as he held the letter of the imperial decree in his hand.

“Put the imperial certificate on the ground. I'll put it into my storage ring to have a look. I don't want to be struck by lightning,” Yun Chujiu said while glancing at the Imperial Certificate in Imperial Chancellor Liu's hand.

Imperial Chancellor Liu immediately put the imperial certificate on the ground. Hei Xinjiu put the imperial certificate into her storage ring and scanned it with her spiritual awareness. Seeing that there was nothing wrong with it, she sighed and said,

“Originally, I wanted to marry into the Jing Mu Kingdom and become a side concubine of the Crown Prince! Since I am so good-looking, perhaps the crown prince would be happy to make me another crown concubine. I didn’t expect that the heavens would not give me what I wanted, so I could only give up!

“Your Majesty Mu Xuan, I will take my leave now. Maybe the Divine Phoenix will not strike me anymore because I am truly regretful! “I will come back another day to see your Majesty!”

Emperor Mu Xuan couldn’t wait for this jinx to get lost, so he didn’t do anything. Yun chujiu took it as his acquiescence, bowed, and ran out of the palace.

The guy shouted while running, “Prime Minister Sima, take some people and follow me back to the East Phoenix Kingdom! Your Majesty Nan Xuan, Your Majesty Xiwen, and Your Majesty Beijing, do you want to stay here or leave with me?”

Emperor Nan Xuan and the other two looked at each other. They had borrowed the light to come here in the first place. Now that this girl wanted to leave, there was naturally no need for them to stay. Thus, they all expressed that they would follow her.

Everyone left the scenery city in a huff. Then, the problem came! Emperor Nan Xuan and the others could naturally leave on flying spiritual artifacts, but Hei Xinjiu was being hacked to death. What should they do?

Moreover, after such a long ordeal, Hei Xinjiu’s stamina was almost exhausted.

Hei xinjiu blinked her eyes. Now, she could only spend money!

She said to Emperor Nan Xuan and the others, "I'll go first. You guys follow me from behind. Remember to stay far away from me so that you won't be affected."

Without Yun Chujiu's instructions, Emperor Nan Xuan and the others would not get too close to her. This fellow was a jinx now. Only a fool would get close to her.

But, how was she going to go? Run back to the East Phoenix Kingdom on two legs? Stop bullshitting!

Just as Emperor Nan Xuan and the others were puzzled, they saw Yun chujiu call out a flying spirit tool from her storage ring. After she went up.., the Flying Spirit Tool shot up into the sky with a speed as fast as lightning.

This flying spirit tool ran much faster than Xiao Hei's two legs. In a short while, it turned into a small black dot wrapped in purple heavenly lightning..
