

The Yun Family's Ninth Child is an Imp! Chapter 3370

Yun chujiu frowned and thought for a while. Then, she gritted her teeth and said, "It seems that we can only build our own exit. Come on, let's dig a hole together happily!"

Emperor Nan Xuan and the others looked at Yun chujiu as if they were looking at an idiot. Dig a hole?

This was an extremely stupid method!

This was because they did not know where the stone hall was located. If it was in the middle of the mountain or deep underground, how long would they have to dig? !

Seeing that no one moved, yun chujiu sneered, "Why? Do you have any better ideas besides digging? If not, then work together and start digging. One day, we will see the light of day again."

When everyone heard this, they were instantly terrified.

That's right. Now, besides digging, there were no other good ideas.

As Yun Chujiu's die-hard fan, prime minister Sima naturally took the lead and slapped a stone wall.

However, the stone wall was undamaged.

Prime Minister Sima's face turned red and he slapped a few more times, but the stone wall was still undamaged.

Emperor nan Xuan sneered, "Don't waste your energy! The stones used in this ancient cave abode must be extraordinary and are naturally very strong. Therefore, it's impossible to dig a hole..."

Emperor Nan Xuan's voice suddenly stopped because he saw that Empress Jiu easily cut a hole in the stone wall with a large kitchen knife. It was as easy as cutting tofu.

After Yun Chujiu cut the stone wall, she said, "My task is completed. The rest is up to you. Start digging! It would be best if you have a spiritual pet that is good at digging holes."

Emperor Nan Xuan and the others:"..."

Your task is completed?

You are slacking off after cutting such a small piece?

But there is no other way. who asked her to have that broken kitchen knife in her hand! No one knew where that broken kitchen knife came from, but it was actually so sharp.

Because the hole could only accommodate one person, everyone began to take turns digging the hole.

Yun chujiu jumped and cursed, "Are you guys stupid? You have to dig up! Otherwise, you won't be able to get out even if you dig until you die!"

Although everyone was furious, they had no way to refute. who asked them to be... stupid!

Seeing that these people were digging too slowly, Yun chujiu had no choice but to bring out the rabbit sky group and Xiao Hei. She curled her lips and said, "Get out of the way. Let my spiritual pet come."

When Emperor Nan Xuan and the others saw Yun Chujiu's few rabbits, they were all dumbfounded. What were these things? ! This was... a rabbit?

A rabbit had five legs? And they had such long hair? And they had two heads? The last one seemed to be a hamster without a tail?

Although these spiritual pets were good at digging holes, their spiritual power was too low, right? How could they dig faster than them? It was impossible, right?

Everyone had the attitude of giving it a try, and then they realized that although these exotic spiritual pets had low spiritual power, their digging speed was faster than their combined speed.

Emperor Nan Xuan and the others could only help to put away the soil that they had dug up so as not to block the tunnel.

When Emperor Nan Xuan saw the rabbits, he could not hold back his curiosity and asked Empress Jiu, "Your Majesty Fenghua, where did you get these rabbits? What kind of demonic beasts are these? It seems that there is no record of them in the ancient records."

Yun chujiu showed a proud smile. "They all became like this after eating the pills that I refined. You know, my alchemy skills are very good.

"I fed all the pills I refined to them, and then they became like this! "If Your Majesty Nanxuan is interested, I'll give you a few pills to try."
