

The Yun Family's Ninth Child is an Imp! Chapter 3371

Emperor Nan Xuan shook his head like a rattle-drum. He shuddered at the thought of his body covered in long hair, two heads, and five legs!

Yun chujiu pursed her lips. "Forget it, you'll regret it in the future."

Emperor Nan Xuan thought to himself, he would only regret it if he was crazy. He would rather die than eat the pills she refined!

Two days later, everyone finally saw the light of day again.

If it weren't for their status, Emperor Nan Xuan and the other two would have hugged their heads and cried. F * ck! It was really not easy! They were finally out!

Everyone took out a map and compared it with Bai Li's. They realized that they were already hundreds of miles away from the previous valley.

Everyone was surprised and happy. This way, they could completely escape from Jing Jiahong's pursuit.

They didn't dare to delay. They sat on a flying spirit tool that Yun Chujiu bought from Jing City and headed straight for the border between the East Phoenix Kingdom and the Jing Wood Kingdom.

Everyone was both excited and a little nervous. They would reach the border in an hour and a half at most. They didn't know how many troops the Jing Wood Kingdom had deployed there. Would they be able to pass through safely?

There was a formation set up at the border to prevent flying. Everyone had no choice but to land the flying spirit tool a few miles away from the border checkpoint.

They hid in a dense forest and looked into the distance. They saw hundreds of soldiers constantly patrolling the area. Not to mention them, even an ant would not be able to climb over.

Emperor Nan Xuan lowered his voice and said, "Your Majesty Fenghua, what should we do next? We will be sending ourselves to our deaths if we go forward!"

Yun chujiu blinked her eyes and said, "I have a way to get out, but you have to agree to one condition of mine."

Emperor Nan Xuan was so angry that he almost vomited blood!

What time was it? This little girl was still making conditions?

"What condition?"

"Your Majesties, as you can see, the well-wood kingdom is ambitious and has made up its mind to annex our four kingdoms. So now we can only turn the passive into the active and take the well-wood kingdom into our own hands," Yun Chujiu said with a smile.

Emperor Nan Xuan and the other two were so scared that they almost sat on the ground. "Are you... are you crazy? Take... take the Jingmu Kingdom? We are only a third-class kingdom. How can we defeat a second-class kingdom like the Jingmu Kingdom?"

"So what if we are a second-class kingdom? You have seen it for yourself. The people of the Jingmu kingdom are indeed stronger than us, but they are not that strong.

“Let’s take them by surprise and take down the six kingdoms first. Even if we are slightly weaker than the Jingmu kingdom, we still have the strength to fight them. “Besides, I’m here. What are you afraid of?”

Emperor Nan Xuan and the other two were speechless

“After we take down the Jing Mu Kingdom, we will divide the territory equally. At that time, even though we are still not a second-class country, no second-class country would dare to underestimate our alliance. Wouldn’t we be more carefree than we are now? !

“Don’t think that you are lucky. You think that the Jing Mu Kingdom will only deal with our East Phoenix Kingdom. From the pursuit this time, it can be seen that Emperor Mu Xuan has no intention of letting you go.

“Alright, Stop Wasting Time! “I know that you have already agreed. Come, sign and sign on this four-nation alliance! “Remember to seal the jade seal!”

As Yun Chujiu spoke, she took out a contract from her storage ring that had long been drawn up by Prime Minister Sima.

Emperor Nan Xuan and the other two felt as if their hearts were going to explode!

Why did they feel that they had been tricked?

Why did they feel as though this guy had planned it all along?

Could they not sign it?

Could they say that they did not bring the jade seal with them?

Yun chujiu pointed at the soldiers at the border and then made a hand gesture to slit their throats. The three of them had no choice but to obediently sign the four-nation alliance agreement of mutual benefit and mutual benefit.
