

## The Yun Family's Ninth Child is an Imp! Chapter 3373

Shang Liangxin's head buzzed. They didn't die? And they even safely passed through his defense line?

It was over!

Even if he didn't die this time, he would skin them alive!

He looked at the food and wine on the table again and immediately kicked the table to the ground in anger!

Damn it, no wonder the East Phoenix Kingdom sent spirit stones and food and wine all of a sudden. It turned out that the drunkard's intention wasn't in the wine. It was too sinister!

He had the intention to capture Yun Chujiu and the others, but when he saw the tens of thousands of soldiers behind Yun Chujiu, he immediately stopped!

Although their spiritual power was a little higher than theirs, they could not withstand the large number of people on the other side! If they went up with a few hundred people, they would simply be sending themselves to their deaths.

Just as Shang Liangxin was so angry that he was about to vomit blood., he heard empress jiu say coldly, "General, please pass on our message to His Majesty Mu Xuan. We are very satisfied with the reception this time. If there is an opportunity, we will visit His Majesty Mu Xuan again."

Shang Liangxin was so angry that he couldn't even speak. Then, he saw that the female emperor of Fenghua was surrounded by a large number of soldiers and quickly disappeared.

Yun chujiu and the others retreated to a place dozens of miles away from the border. Yun chujiu signaled for them to stop moving forward.

Yun chujiu said very seriously, "The Jingmu Kingdom will soon send troops to attack our East Phoenix Kingdom, so we can only split our troops into two groups.

"One group will be deployed here to intercept the Jingmu Kingdom's attack.

"The other group will gather all the superior forces of the four kingdoms and attack the other six vassal states one by one. We must end the battle as soon as possible, because we can't drag out the battle for too long along the border."

Emperor Nan Xuan and the other two had already boarded the pirate ship, so they could only listen to Yun Chujiu's arrangements. Emperor Nan Xuan asked, "Then how do we divide the work?"

"In order to express the sincerity of our East Phoenix Kingdom, I will guard the border here. You guys go and attack the other six kingdoms. I believe that you will not disappoint me," Yun Chujiu said calmly.

Emperor Nan Xuan and the others did not expect Yun chujiu to make such an arrangement. Even if they used their toes to think, they would know that the mission along the way was much more difficult than attacking the other six kingdoms.

Moreover, the other group had a way out. If they were defeated, they would die.

Emperor Nan Xuan and the other two could not help but look at Yun Chujiu in a different light. This little girl was bold, but could she stop the attack of the Jing Wood Kingdom?

After discussing the details, Emperor Nan Xuan and the other two returned to their respective kingdoms. They arranged for their troops to gather on the way, trying to buy as much time as possible.

On the other side, Shang Liangxin had no choice but to force himself to report the news to the Crown Prince, Jing Jiahong.

Jing Jiahong was still leading his men to guard the entrance of the spirit-extermimating valley. He was very pleased with himself. He thought that three or four days had passed. Yun chujia and the others must have died, it was only a matter of time before the Jing Wood Kingdom annexed ten vassal states.

Therefore, when he received Shang Liang's voice transmission talisman, he was shocked and angry. He gnashed his teeth in hatred.

He immediately turned back to Jing city and looked for Mu Xuan to discuss the next step.

Mu Xuan had gathered the ministers to discuss. Now, he could only send out troops by force. After all, the East Feng Kingdom was no match for the Jing Mu Kingdom.

Jing Jiahong personally received the Order and rushed to the border with 50,000 soldiers. As soon as they reached the border, they received a piece of shocking news.

The East Phoenix Kingdom, the South Dragon Kingdom, the West Martial Kingdom, and the North Xuan Kingdom had actually joined forces to attack the Zhong Mu Kingdom. What were they trying to do? !

Furthermore, it had only been five days since the female emperor and the others had escaped, yet they had already taken over the Zhong Yue Kingdom. Could it be that they had planned this all along?
