

The Yun Family's Ninth Child is an Imp! Chapter 3374

Could it be that they wanted to contend with the Jing Mu Kingdom? Or even annex the Jing Mu Kingdom?

On one hand, Jing Jiahong felt that this was an extremely ridiculous idea. How could a mere third-class country possibly have such an idea? !

However, on the other hand, he felt that this was the goal of the four countries of the East Phoenix Kingdom. Otherwise, why would they want to annex the Zhong Yue Kingdom?

Moreover, after they annexed Zhong Yue, they did not withdraw their troops. Instead, they continued to attack Zhong Yue's neighboring country, Ligu.

Jing Muguo had the intention to help the LIQU countries resist the four-nation alliance. However, their Jing Muguo only shared a border with the East Phoenix Country. If they wanted to participate in the war, they had to break through the East Phoenix Country's defense line.

Although Jing Jiahong was shocked and angry, he felt that the four countries were extremely stupid! Their current behavior was like an egg hitting a stone. As long as he led the army to break through the defense line of the East Phoenix Kingdom, the Four Nations Alliance would break down on its own!

"How many troops are stationed in the East Phoenix Kingdom? Who is the leader?" Jing Jiahong asked.

Shang Liangxin hurriedly said in an ingratiating manner, "Your Highness, your subordinate sent people to cross the border to investigate. Bai Li didn't find any troops stationed in the East Phoenix Kingdom. Could it be that they got the news that you led the army here and scared them away?"

Jing Jiahong frowned. Could it be like this? The four-nation alliance even dared to plot against their Jing Mu Kingdom, so how could they be so cowardly?

However, no matter what tricks they were playing, they were completely useless in front of absolute strength.

In a mountain col a hundred Li away from the border, prime minister Sima said with a worried expression, "Your majesty, the Jing Mu Kingdom's crown prince has already arrived with fifty thousand troops. What should we do next? Can We stop him?" Bai Li asked

Yun chujiu took a few bites of the spirit fruit. "What are you afraid of? ! They have 50,000 troops, but we have 50,000 troops too!"

Prime Minister Sima was about to Cry!

The combat strength of the Jingmu kingdom's 50,000 troops was much stronger than theirs! Their 50,000 troops were equivalent to their 150,000 troops, okay?

Yun chujiu seemed to have seen through prime minister Sima's thoughts. She smiled and said, "What are you afraid of? ! We Can't beat them in the open, so we'll just attack!"

Dirty?

My lord, do you think this is a fight between two men?

How are we gonna do this?

"Know why I hide in this col inside?" Yun chujiu asked with a smile.

Prime Minister Sima shook his head. Of course, he did not know why Yun Chujiu had hidden the army in this Col. It was more than a hundred li away from the border. Bai Li had no idea why Yun Chujiu had hidden the army in this col.

Weren't the two countries fighting for every inch of land? Why did his majesty retreat more than a hundred miles without waiting for a fight? Could This battle still be fought?

Yun chujiu was still smiling. She pointed at the cliffs on both sides and said, "The reason why I retreated here is because this is the best place to attack! This place is both a no-fly zone and the best terrain for an ambush.

"When the two countries are fighting, they must have a strategic vision. They can't be calculative about the momentary gains and losses."

Prime Minister Sima Thought for a while and felt that what Yun Chujiu said made sense, however, he asked, "Your Majesty, then why are we staying in this Col? Shouldn't we climb up the cliffs and ambush on both sides? And what should we use to attack? The cliffs are so high, so the spiritual power attack shouldn't be very effective."

The smile on Yun Chujiu's face became even brighter. "We didn't climb up the cliff before because the Jing Mu Kingdom would definitely send their spies to check if there were any ambushes on the cliffs on both sides.

"Now that their spies have finished their investigation, we can go up. "As for the means of attack, didn't the South Dragon Kingdom give us a lot of talismans for our friendship? It's a gift for the people of the Jingmu Kingdom."
