

The Yun Family's Ninth Child is an Imp! Chapter 3385

Jing Jiahong's face was very gloomy. He was so angry that he gritted his teeth. This Yun Chujiu was as cunning as a fox. He didn't know which of her words were true and which were false.

"Your Highness, there are probably traps with poisonous knives under the city wall. Yun chujiu probably delayed us to set up these traps. Our priority now is to fill up those traps. Otherwise, we won't be able to attack the city," said a general.

Jing Jiahong was silent for a long while with a gloomy face. Then he said, "We'll do as you say. We'll fill up the traps as soon as possible. After filling up the traps, we must take down Puyang city within a day."

..

Yun chujiu hid behind the city wall and looked out. Prime Minister Sima, who was standing behind her, now had a great admiration for their emperor!

With one mouth, His Majesty kept the 90,000-STRONG Army of Jingmu out of the empty city and dragged them out for three days!

Now His Majesty has carelessly deceived and caused the death and injury of thousands of the Army of the Itoki Kingdom!

Their Majesty is Inhuman!

Prime Minister Sima saw the soldiers of the Itsuki kingdom preparing to fill in the traps, "Your Majesty," he said worriedly, "If the people of the Itsuki kingdom fill up the traps, they will definitely attack the city by force. We may not be able to hold out for long."

A cunning gleam flashed in the eyes of Hei Xinjiu, who was not a human being. "Pass down the order. Once the soldiers of the Jingmu Kingdom start to clear the traps, give me poison arrows, talismans, and all of them!

"Also, tell the Masters of refining to work overtime to hurry up the production of arrows. Don't worry about the refined iron ores. You can have as many as you want."

Prime Minister Sima nodded. "Your Majesty, even so, I'm afraid that we won't be able to delay for long. At most, the traps will be cleared in one day."

"I have my own arrangements. Otherwise, wouldn't I have wasted three days of the Sky City Plan?!" Yun Chujiu said faintly.

Prime Minister Sima really didn't understand what Yun Chujiu was up to. Seeing that she was unwilling to reveal it, he could only go down and arrange for the arrows.

The soldiers of the Jingmu kingdom began to dig the soil around them. Then, they braved the poisonous arrows of the Allied forces of the four kingdoms and began to fill the traps. As long as the traps were filled up, the poisonous blades in the traps would naturally pose no threat to them.

Finally, after half a day, the soldiers of the Jing Wood Kingdom filled up the traps at the cost of thousands of casualties.

Jing Jiahong said coldly, "Attack the city!"

Before the soldiers of the Jing Wood Kingdom could reach the bottom of the city wall, another large area collapsed. The inside was still full of poisonous blades, and thousands more people were killed or injured.

Jing Jiahong gnashed his teeth in anger. "Fill it up! Continue to fill it up!"

After another half a day, the collapse near the city wall had finally been filled up.

The army of the Jing Wood Kingdom rushed toward the city wall in a mighty manner. Prime Minister Sima kept wiping the cold sweat on his head. "Your Majesty, according to this situation, we can only defend for another day at most. You still have to make plans as soon as possible!"

Yun Chujiu said with a smile, "What are you afraid of? ! I was worried that they wouldn't rush over!"

Prime minister Sima felt that this "Inhuman" emperor was most likely crazy this time! She was actually hoping for the army of the Jing Mu Kingdom to attack the city? ! Wasn't this courting death? !

Jing Jiahong saw that the army had already approached the city wall. He sneered at Yun Chujiu who was on the city wall, "B * Tch, your death date is coming soon! Attack the city!"

Yun chujiu smiled at him brilliantly, "Idiot, why don't you learn your lesson? ! Did you think that my trap would be so simple?"
