

## The Yun Family's Ninth Child is an Imp! Chapter 339

Yun Chujiu rummaged through the storage ring for a long time. "I clearly put it in this storage ring. How did it disappear? What the hell!"

Di Beiming frowned slightly. "Could it be that you put it in the other two storage rings?"

Yun Chujiu used her divine sense to rummage through it again. "No, the other two don't have it either! Could it be that the alchemy furnace could grow legs and run away? Even if it had legs, it wouldn't be able to run away!"

At that time, the rolling pin said weakly, "Master! Master! I'll report it!"

Yun Chujiu took out the rolling pin from the storage ring. "Little Flame, what happened?"

The rolling pin said with a sobbing voice, "Master! I agreed to it, but please don't put me and the monster in the same ring in the future! I watched it eat the alchemy furnace!"

"Monster? What monster?" Yun Chujiu was confused and asked.

"It's your other alchemy furnace! Sob sob, it's a monster! It's so scary! Sob sob, it scared me to death!" The rolling pin was obviously scared.

The other alchemy furnace?

Yun Chujiu took out an alchemy furnace from her storage ring. It was the Heaven and Earth Universal furnace that Di Beiming gave her.

Yun Chujiu looked at it carefully and did not find anything unusual. Was this nit a higher grade alchemy furnace?!

The rolling pin said with a trembling voice, “Master! Yes, that’s it! It ate that alchemy furnace!”

Yun Chujiu looked at Di Beiming. “Prince Charming, can this Heaven and Earth Universal furnace eat an alchemy furnace?”

Di Beiming frowned. “That’s not possible! It’s impossible for an alchemy furnace to have a weapon spirit. Moreover, even if it has a weapon spirit, it wouldn’t eat other alchemy furnaces!”

Yun Chujiu was a little doubtful. After all, the rolling pin would not lie. Moreover, the alchemy furnace that Elder Qi gave her had indeed mysteriously disappeared! There was no other explanation other than being eaten by the furnace.

Just as Yun Chujiu was puzzled, she heard a light burp in her consciousness.

“Who is it? Get out here!” Yun Chujiu asked with her spiritual sense.

Then, Yun Chujiu heard baby-like sounds which seemed to be very happy.

Yun Chujiu was dumbfounded!

“Well, my God. Does the alchemy furnace really not have spiritual sense?” Yun Chujiu asked timidly.

“Of course not! Didn’t I tell you before? Whether it was the earth fire or the refining flint, they all had the burning effect. That was why no alchemy furnace from ancient times ever produced a spirit! Besides, if the alchemy furnace has a spirit, how great will it be? Wouldn’t that mean anyone can become a high-level alchemist?” Di Beiming said with certainty.

Yun Chujiu touched her chin and then coughed dryly. “Well, my Prince Charming, I’m afraid this Heaven and Earth Universal furnace is the first alchemy furnace with a spirit!”

Di Beiming glared at her. “Black Thing, don’t talk nonsense! How is this possible?!”

“Then let’s test it out! Which one of you has an alchemy furnace in your storage ring? Take one out and see if the furnace eats it.” Yun Chujiu shrugged.

Di Beiming and the other two really did not have an alchemy furnace in their storage rings. Yun Chujiu suddenly remembered that she put Zhang Xiong’s and the other two’s storage bags into the storage ring that she got from Xue Wuji. She rummaged through the storage ring and found an alchemy furnace. She quickly took it out.
