

## The Yun Family's Ninth Child is an Imp! Chapter 3411

At night, Yun Chujiu had a barbecue party with the silly girls in the yard. Her depressed mood was finally somewhat relieved.

There was indeed a famous saying that nothing could not be solved by a barbecue. If one meal was not enough, then two..

Two days later, Emperor Mu Xuan suddenly died. A few princes of the Jing Mu Kingdom began to fight for the throne. The army stationed in the East Phoenix Kingdom had all retreated back to the Jing Mu Kingdom.

Hei xinjiu blinked her eyes. This was a once-in-a-lifetime opportunity. She would be a fool if she didn't seize this opportunity to conquer the Jing Wood Kingdom!

Therefore, after Emperor Nan Xuan and the others had conquered all six vassal states, the Allied army of the four kingdoms began to conquer the Jing Wood Kingdom.

The princes of the Jing Wood Kingdom didn't have the energy to resist the foreign enemies anymore. They were all trying to seize the throne.

Moreover, they didn't care about the allied forces of the four countries at all. They thought that the Jingmu Kingdom's cities were strong, and the Allied forces of the four countries wouldn't be able to take down a few cities in a short time. It wouldn't be too late to deal with the Allied forces of the four countries after the throne was confirmed.

Unexpectedly, when the fight for the throne of the Jingmu Kingdom finally came to an end, the newly ascended Emperor Gongzhao received the news that the Allied forces of the four countries had already taken over half of the Jingmu Kingdom's territory before he could sit firmly on the throne, they were heading towards Ganshi City.

Emperor Gongzhao felt a little numb. If the four Country Alliance army took over Ganshi City, then the defense line of the Jing Mu Kingdom would collapse. It was very likely that the four Country Alliance army would take over Jing City.

Emperor Gongzhao quickly mobilized 200 thousand troops to Ganshi City. He was determined to stop the four Country Alliance army in Ganshi City and even chase them out of the Jing Mu Kingdom.

The general who led the troops this time was an old acquaintance of Yun Chujiu. It was Imperial Chancellor Liu.

Imperial Chancellor Liu was really good at following the wind. When he heard that the crown prince had died, he directly placed his bet on Emperor Gongzhao.

After Imperial Chancellor Liu ascended the throne, he immediately married Liu Hanyan as his empress. Imperial Chancellor Liu once again became the ruler of one man and ten thousand men.

Therefore, imperial chancellor Liu brought his troops to Ganshi city this time to use all his strength to deal with the Allied forces of the four countries. Otherwise, he would not be able to maintain his glory and wealth.

After Imperial Chancellor Liu brought his troops to Ganshi City, he waited for the arrival of the Allied forces of the four countries.

Imperial Chancellor Liu was still very confident. The 200,000 troops that he brought along along with the 50,000 troops that were originally stationed in Ganshi City made a total of 250,000.

Although the four-nation alliance army had 300,000 soldiers, their spiritual power was generally lower than that of the Jingmu Kingdom army. In addition, Ganshi City was easy to defend and difficult to attack. It was simply wishful thinking for the four-nation alliance army to take over Ganshi City.

Moreover, they had lost so many cities previously because of the fight for the throne of the Jingmu Kingdom. Otherwise, the four-nation alliance army would not have won by luck.

Soon, the four-nation alliance army arrived outside Ganshi City. However, they did not attack the city immediately. Instead, they camped outside Ganshi City.

In the meeting tent of the four Country Alliance Army, everyone was discussing countermeasures.

“Your Majesty Fenghua, our morale is high, why don’t we attack the city directly?” Emperor Nan Xuan was in high spirits. He thought that the Jing Wood country was great, but in the end, they did not even dare to fight. If he had known earlier.., he would not have been bullied by them in the past!

Yun chujiu glanced at him, “There are 250 thousand jing wood country troops in Ganshi City. Do you think that we can succeed?”

“Haven’t you heard of going all out and failing again? “If we are defeated in one attack, our morale will be low, so we have to plan carefully before we can attack the city.”
