

The Yun Family's Ninth Child is an Imp! Chapter 3425

Emperor Nan Xuan was stunned at first, but when he saw the way Ji Shen stared at Yun Chujiu, his heart felt like it was going to explode. Was Ji Shen planning to take advantage of this girl?

The first thought that came to Emperor Nan Xuan's mind was, was he f*cking tired of living?!

Even if Emperor Nan Xuan knew that Ji Shen was a member of the Li Hate Palace, even if he knew that Yun Chujiu would not easily become enemies with the Li Hate Palace, he had an inexplicable feeling that a black-hearted person like Yun Chujiu would definitely not spare Ji Shen.

While Emperor Nan Xuan was somewhat worried, there was actually a strange sense of excitement. At first, he was worried that Yun chujiu would brush him off and would not do her best.

But now, there was no need to worry at all!

Even if she did not want to help him, this Ji Shen was seeking his own death. She would definitely think of a way to deal with him. It had to be said that this Ji Shen had done a good job!

Naturally, Emperor Nan Xuan did not want to leave just like that. He looked at Yun Chujiu and asked for her opinion. Yun chujiu curled the corner of her lips and said indifferently,

"Your Majesty Nan Xuan, since you are busy with national affairs, you don't have to accompany me. It will be fine as long as national advisor Ji Shen is with me."

Yun chujiu then looked at prime minister Sima and the others who were following behind her. "You can also follow His Majesty Nan Xuan and leave. Just wait for me outside the Divine Hall!"

Prime Minister Sima's head was buzzing. He knew that His Majesty was a troublemaker. What was she going to do now? ! It was obvious that Ji Shen was up to no good. She actually wanted to be alone with him. Had she forgotten about the Empress?

Ji Shen was rather satisfied. He thought to himself, could it be that this Empress Fenghua also had feelings for him? Otherwise, why did she send her subordinates away?

Emperor Nan Xuan exchanged a few more pleasantries before leaving with Prime Minister Sima and the others.

Ji Shen sent his subordinates away as well. Then, he said with a malicious expression, "I've long heard that Her Majesty is very beautiful. She really lives up to her reputation today. Why don't we go to the room to drink tea first, and then pay respects to the Divine Dragon?"

Yun chujiu still had a faint smile on her face. "State Preceptor, you're in a good mood. However, let's pay respects to the Divine Dragon First."

Ji Shen thought to himself that this female emperor of Zephyr nation wouldn't be able to escape from her grasp today anyway, so there was nothing much for him to do.

Although her status as the monarch of a second-tier country was somewhat troublesome, she had no way of interacting with the Li Hen Palace. Even if he took advantage of her, she could only suffer in silence.

The more Ji Shen thought about it, the more pleased he became. Soon, he brought Yun Chujiu to the Divine Hall Square.

The square of the Divine Hall was no different from the square of the East Phoenix Kingdom. In front of them was still the nine-story altar.

Yun Chujiu's eyes flashed. "State Preceptor Ji Shen, let's begin the ceremony!"

Ji Shen's mind was not on this, so he gave a few perfunctory greetings. Yun chujiu looked at the altar with burning eyes. If the remnant soul of the Divine Dragon was suppressed here, things would be much easier.

If there was no remnant soul of the Dragon God here, then she could only pretend to be a ghost. Anyway, this was her strong point, so she could just act it out.

Thinking of this, Yun chujiu lifted her leg and walked towards the altar.

Ji Shen did not expect Yun chujiu to make such a move. When he wanted to stop her, Yun Chujiu had already climbed onto the first layer of the altar.

He was obviously worried and did not go forward to stop her. Instead, he said anxiously, "Emperor Fenghua, come down quickly! Otherwise, the Dragon God might think that you are sacrificing yourself and eat you directly."

Yun chujiu smiled, "I am offering myself as a sacrifice! I heard that the Dragon God used a lot of young women in the past. I don't think he would reject me, right?"
