

The Yun Family's Ninth Child is an Imp! Chapter 3439

Yun Chujiu said with a blank expression, "I came here to pick herbs and didn't go into the depths of the forest, so I don't know if there's anything unusual in the Zhu Tian Valley."

Yun Chujiu was afraid that people wouldn't believe her, so she took out a few herbs that she picked and shook them.

The middle-aged man who asked the question wanted to continue asking, but a man next to him said, "How could a good-for-nothing in the eighth layer of the illusionary realm dare to get close to the Zhu Tian Valley? !"?!

"I guess she is only picking some spiritual herbs outside the forest. Let's go to the Zhu Tian Valley to take a look. The Imperial preceptor said that there is a big change inside, so we should hurry there. If we delay..." "I'm afraid the Imperial preceptor will blame us."

Hearing that, the middle-aged man looked at Yun Chujiu a few more times. Seeing that Yun chujiu was calm and did not show any guilty expression, he did not ask any more questions. Soon, the group of people disappeared.

Yun chujiu blinked her eyes. Imperial tutor? A great change?

This guy felt that if those people found out that the Zhu Tian Valley's enchantment had disappeared, they might suspect her. It was better to escape quickly.

This guy quickly adjusted the level of his spiritual power to level six of spirit illusion. He changed his clothes and then took a disguise pill. His appearance changed again.

She picked up Xiao Hong and ran out.

She had to leave before those people returned, or else she might be in trouble.

Hei Xinjiu risked her life and finally left the forest and arrived at a public road.

This guy was slightly relieved. He mixed with the crowd and walked along the public road. After walking for a short while, a few people on wildebeest caught up with him. One of them was the middle-aged man who asked the question.

The man came to Yun Chujiu's side and stopped his wildebeest to size her up. Seeing that neither her appearance nor her spiritual power was the same as the little girl from before, he did not say anything and let Yun Chujiu leave with the others.

Yun chujiu could not help but sigh in her heart. As expected, one must be careful when using the ten-thousand-year-old ship. What a close call!

While sighing in her heart, the man pondered. The spiritual power of the pedestrians here seemed to be similar to that of the people of the Jingmu Kingdom. It seemed that this place should also be a second-class country. However, she did not know which second-class country it was?

Yun chujiu followed the crowd and walked forward. From Afar, she saw a magnificent city.

Yun chujiu originally thought that she was used to seeing high-rise buildings in her previous life. No city would shock her much. However, the city in front of her still stunned her.

The city wall that almost reached the clouds was built from an unknown material. It reflected the light of the sun, making it so dazzling that people could hardly open their eyes.

In the middle of the city gate, there were three magnificent words written — Starry Night City. There were several soldiers guarding the city gate, and every person who entered had to check their identity documents.

Starry Night City?

Yun Chujiu's heart trembled. Starry Night City was the capital of the second-class country, the Star Sun Country, and the Jing Mu country were both vassal countries of the first-class country, the Jun Tian country. How could she accidentally bump into the capital of the Star Sun Country?

Yun Chujiu complained in her heart. Of course, she could not take out her identity document. Otherwise, there was no way to explain why she had come here when she was clearly in the southern dragon country. It was simply asking for trouble.

However, if she turned around and went back, those people from before might suspect her. This was really a dilemma.

For now, it was safer to sneak into Starry Night City first and then think of a way to leave. However, the soldiers guarding the city were very strict. How could she sneak in?
