

The Yun Family's Ninth Child is an Imp! Chapter 3449

"It is said that there are ghost face orchids in the Orchid Valley. We will reach the orchid valley in about ten days," di beiming said faintly.

Little Nine took out a piece of sugar ball and threw it into her mouth. She asked vaguely, "Then where is the Orchid Valley? Is it dangerous?"

"The Orchid Valley is in the territory of the first-class country, juntian country." Di beiming did not say anything about whether it was dangerous or not. Obviously, he felt that there was no need to answer Little Nine's question.

Little Nine curled her lips. So what if her spiritual power was high? ! Ptui! Sooner or later, she would also become powerful!

In the next few days, little nine provoked a certain someone with different tricks. Unfortunately, the certain someone was not moved at all and allowed little nine to play tricks.

If it was an ordinary person, they would have been discouraged long ago. However, hei xinjiu was obviously not an ordinary person. This fellow was stimulated by his fighting spirit and was simply not tired of it.

On this day, they finally arrived at the entrance of the Youlan Valley.

Hei Xinjiu followed di beiming out of the flying spirit tool. When she saw that there were many people gathered in the distance, she could not help but wonder, why were there so many people? Could it be that they were all here to look for the ghost face orchid? Why didn't they enter?

At this moment, those people's gazes were also looking at di beiming and Hei Xinjiu.

To be exact, they were looking at di beiming.

Where did this young man come from? Why was his aura so shocking? What surprised them was that they could not see through di beiming's cultivation, which meant that this young man's spiritual power was higher than theirs.

Especially some of the women, who were looking at di beiming with infatuation. Such a handsome and noble man was the best choice for their husband. They had come to the Youlan Valley for the right reason!

Hei Xinjiu was furious when she saw the infatuated gazes of those women!

What the F * ck, where were they looking at? ! This was her man! A bunch of shameless flirtatious bitches! If she had known this would happen, she would have let the Pretty Boy eat a disguise pill. What a miscalculation!

This guy rolled his eyes and hugged di beiming's thigh. "Daddy, Hug!"

Daddy?

Disappointment appeared on the faces of those women. So he had already married and had children. What a pity.

Di beiming's gaze was slightly cold as he stared at little nine who was begging for a hug. In the end, he still carried her.

He was also very surprised to see so many people at the entrance of the Youlan Valley. He had originally planned to pick a few ghost face orchids and leave. He did not expect that there would be complications. What were these people gathered here for?

Just as Di Beiming was thinking, a woman walked over shyly and timidly, "Young master, are you also here for the Ghost Face Orchids?"

Di Beiming faintly acknowledged and coldly said, "Why don't you guys go in?"

The woman was clearly a little dizzy from Di Beiming's voice, after a while, she said, "Young master, you might not know this, but this Youlan valley is not always open. You need a specific time to enter. In less than an hour, the Youlan Valley will open."

Di Beiming nodded his head indifferently and did not say anything else.

When the woman saw that Di Beiming did not speak.., she continued, "Although there is a ghost face orchid in the Youlan Valley, the ghost face orchid is different from other herbs. It is difficult for ordinary people to find its traces, so even if you can enter the Youlan Valley, you might not be able to find the ghost face orchid."

When the woman said this, her gaze turned to look at Di Beiming, she said with a hint of self-satisfaction, "However, our Jun Tian Kingdom's imperial clan has a treasure to look for the ghost face orchid. Young master will follow this princess in a while. You will definitely be able to find the ghost face orchid."
