

The Yun Family's Ninth Child is an Imp! Chapter 3450

Princess?

Little nine narrowed her eyes. No wonder the others seemed to be afraid of this woman. So she was the princess of the Jun Heaven Kingdom?

However, this princess was really shameless!

When the other women heard that her gigolo was already a father, they knew that it was difficult and retreated. However, this one came forward. Could it be that she wanted the gigolo to divorce his wife and marry someone else?

Although little nine wanted to curse the princess in her heart, she thought of what she said. If she couldn't bear it, she would mess up the big plan. It was better to get the ghost face orchid first.

When Little Nine was thinking about it, she heard di beiming say coldly, "No need."

Little Nine's heart was a little complicated. On one hand, she was satisfied with the cold attitude of a certain lord towards the other girls. On the other hand, she was a little annoyed at the one-track mind of a certain Lord. No matter what, she had to get the ghost face Orchid First!

There was a moment of gloominess on the princess' face, but soon a smile appeared on her face. "Since young master is confident, then Zi Yue will not disturb you."

After Princess Zi Yue finished speaking, she did not continue to pester her and returned to her own team.

An hour later, the thick fog at the entrance of the Youlan valley dispersed, revealing the entrance of the valley. Princess Zi Yue was the first to walk in, and the people behind her also followed her in.

Little nine whispered into a certain venerable's ear, "Why didn't you agree with Princess Zi Yue just now? This way, we can save a lot of trouble."

A certain venerable was a little uncomfortable with the hot air that little nine exhaled. He tilted his head slightly and said, "If you can't find it, just kill them and snatch the ghost face orchid."

Little Nine:"..."

Alright, there was nothing that could not be solved by snatching. Of course, the prerequisite was that you were strong enough!

Just as a certain venerable was about to carry little nine into the Youlan Valley, another group of people came from the distance. Although little nine could not see through their spiritual power, it was clear that their spiritual power was much higher than Princess Zi Yue and the others.

Little Nine caught a glimpse of the symbol on the lower right corner of their clothes and her heart tightened. The Li Hate Palace? They were actually people from the Li Hate Palace. They were also here for the ghost face orchid?

Although the ghost face orchid was precious, the Li Hate Palace could definitely demand it from the Jun Tiantian Kingdom. Why would they need to personally send people here? Could it be that there were other treasures in this orchid valley?

Just as Yun Chujiu was pondering, the people from the Li Hate Palace had already arrived in front of them. Their gazes paused on Di Beiming for a moment and did not say anything else. They quickly entered the Orchid Valley.

Di Beiming's eyes were also slightly surprised. After the people from the Lihen Palace had left, he carried little nine and entered the Youlan Valley.

Once they entered the Youlan valley, Yun Chujiu finally understood the origins of the Youlan Valley. There were all kinds of orchids everywhere. Although the varieties were not particularly precious, they still looked very pleasing to the eye.

Di beiming carried little nine and walked for a while. He frowned slightly. He did not expect the Youlan Valley to be so big. If they continued to walk aimlessly, they would probably return empty-handed.

Hence, he followed the trail of footsteps and chased after Princess Zi Yue.

Although di beiming was carrying little nine, his speed was still very fast. He could see Princess Zi Yue and the others from afar, but he did not see the people from the Li Hate Palace.

However, di beiming and Yun Chujiu's priority was to pick the ghost face orchid, so they did not pay too much attention to the whereabouts of the people from the Li Hate Palace.

Princess Zi Yue glanced at di beiming who was walking over and felt a little pleased. She had rejected him so readily before, but now he was still following them?
