

The Yun Family's Ninth Child is an Imp! Chapter 350

"Nonsense! How can a girl's body be seen by others?! In the future, you're not allowed to draw such immoral paintings anymore!" Di Beiming shouted angrily.

Yun Chujiu shrunk her neck. "Yes, I know! I'll never draw again!"

'Hmph! Anyway, I still have a stack of them in my storage ring. All kinds of postures. Gigolo, you'll die of anger if you argue with me!

Di Beiming thought that Yun Chujiu had realized her mistake and softened his tone. "You didn't finish your meal. Do you want to go out for lunch or rest for a while?"

Yun Chujiu immediately jumped down from the bed. "I'm fine now. Let's go! Let's continue eating."

An Feng and An Yin saw Yun Chujiu jumping down and their eyeballs almost fell out. 'She was about to die just now, why is she jumping up and down now? What a monster! What a pity for our Revered One's primordial chaos vitality pill!'

Yun Chujiu had just eaten a few mouthfuls of food when a dark cloud floated over from the sky.

Yun Chujiu sighed, "Sigh, I can't finish this meal! Prince Charming, perhaps it's because I ate the primordial chaos vitality pill. I'm going to break through! I have to hurry to the back mountain or else this courtyard will be ruined!"

How could Di Beiming be at ease? He quickly carried Yun Chujiu and flew toward the back mountain.

The two of them had just arrived at the back mountain when the sky darkened. From the looks of it, the sky was much bigger than the dark clouds from before! The dark cloud from before was just a formality. It seemed that this was for real.

Yun Chujiu counted with her fingers. 'I'm now at the eighth level of Spirit Enhancement. From the looks of it, I might directly break through to the spirit cultivator realm. I reckon that this damn heavens will not let me off easily.'

"Prince Charming, you must not block the lightning for me this time! I now have a great Void Mirror in my Dantian which also absorbs lightning. It definitely won't be a problem. You just stay by the side and watch."

Di Beiming nodded, but in his heart he planned to make a move if the black thing could not withstand it.

Master Xuanyuan and the others realized that the back of the mountain was once again shrouded in dark clouds. Moreover, it looked even more frightening than the one in the morning. They hurriedly ordered the disciples of the sect to strictly forbid anyone from approaching the back of Middle Peak. Then, they stretched their necks and paid full attention to the situation!

"There was lightning strikes this morning already. Why is it happening again? What did Little Jiu do to provoke the heavens?" Elder Qu asked in puzzlement.

"Could it be that she's going to break through? Maybe after she was done in the morning, the lightning spiritual power in Yun Chujiu's body has accumulated to a certain level, so she is going to break through?" Elder Xiao guessed.

Everyone thought that it made sense. After Yun Chujiu was struck by lightning last time, she went from not having any spiritual power to the fourth level of Spirit Enhancement. Who knew how many levels she would rise this time?

Yun Chujiu looked at the dark clouds above her head and found it somewhat familiar. 'Damn it, wasn't this the piece of dark cloud that struck me and the gigolo naked last time?'

“F*ck! It’s you again! Last time, you really struck me hard! This time, I’m not the same as before! I’ve changed my weapon! Strike me! Little loach!” Since Yun Chujiu had a great Void Mirror in her Dantian, she had more confidence! Even though sometimes these two were quite deceptive, sometimes they were quite useful! For example, at that moment!

The dark clouds in the sky thought that it had succeeded last time, but it did not expect this little scourge to suddenly become more powerful and more lively! In the end, it could only return empty-handed!

Boom! Boom! Boom!

This time, the dark clouds had learned a lesson and directly struck a powerful heavenly thunder as thick as a wrist at Yun Chujiu! ‘No matter what, we must get rid of this scourge this time! Defend the dignity of our lightning tribulation!’
