

## The Yun Family's Ninth Child is an Imp! Chapter 372

Yun Chujiu kept the corpses of the Mountain-drilling Dragons into her storage ring and commanded the chopping board to continue flying forward.

"Furry, it seems that you're quite capable!" Yun Chujiu said with a smile.

Furry said proudly, "Master, I'm very capable! After I'm done weaving the vest, I'll weave a sticky silk net to help you catch demonic beasts in the future!"

"Furry, your idea isn't bad at all. Go on and weave a good net!" Yun Chujiu's eyes lit up. When she encountered enemies in the future, she would get Furry to cast the net and catch the animal. Was that not fantastic?!

An Feng was dumbfounded. 'She's actually taking this as a game?'

The master was weird, but this weapon spirit was even weirder. A weapon spirit who knew how to knit sweaters? Only it could knit sweaters made from the sticky silk of Mountain-drilling Dragons!

Although the fire cave was called a cave, it was actually more like a semi-enclosed underground space. The deeper they went, the more spacious it became. Sunlight shone in through some tiny gaps, and the ground started to become more populated with plants. There were even some shrubs.

Yun Chujiu passed through the territories of a few demon beasts safely. She was a little puzzled. What exactly was trapping Elder Qu and the others?

The temperature was getting higher and higher, and the plants on the ground began to become scarce again. Moreover, the temperature was rising rapidly! Yun Chujiu's scalp was slightly numb and it seemed that there was danger ahead.

Yun Chujiu put away the chopping board and took out a concealment talisman painfully. “Sigh, I really can’t bear to do this but I have no choice but to use the concealment talisman the gigolo gave me! This thing only lasts for two hours. I have to hurry up!”

An Feng, who was following far behind her, also hesitantly took out a concealment talisman. ‘The deeper we go, the more dangerous it is. I have to get closer to Miss Jiu.’

Yun Chujiu advanced swiftly. After fifteen minutes, she smelled a strong stench.

Yun Chujiu did not dare to be careless and proceeded cautiously. Some bones and fur of demon beasts began to appear on the ground sporadically. Yun Chujiu’s heart could not help but tremble. Could it be that Elder Qu and the rest were already there? Yun Chujiu did not dare to think any further and continued moving forward.

Suddenly, a loud beastly roar came from ahead. Yun Chujiu felt her ears trembling until they were somewhat numb. At the same time, the ground began to tremble.

Yun Chujiu took out two balls of cotton and stuffed them into her ears before continuing forward carefully.

After another 15 minutes, Yun Chujiu saw the scene in front of her and could not help but feel both happy and worried.

She saw a trembling spiritual energy barrier on the ground in the distance—it was Elder Xiao and the others! Yun Chujiu counted, and there was not a single one of the twelve people missing. However, all of them were seriously injured. Elder Xiao and Elder Qu seemed to be in a better condition, and they were trying their best to support the spiritual energy barrier.

Outside the spiritual energy barrier, there was a huge demonic beast constantly using its sharp claws to attack the spiritual energy barrier. When Yun Chujiu saw the beast, she thought she was looking at the legendary Divine Dragon!

This beast had the body of a snake. It was a few thousand feet long, and each scale was the size of a Millstone! Its four claws were extremely sharp, and there was a fiery red horn on its head!

The rolling pin said softly, "Master, this is a Fire Dragon. This Fire Dragon has already grown a horn, which means it's at least at Tier Twelve, equivalent to the sixth level of the Spirit Emperor realm!"

Yun Chujiu's heart sank. Elder Xiao's spiritual energy was the highest among them, and he was only at the fourth level of the Spirit Emperor realm. The higher the level of the spiritual energy, the greater the difference between each level of the spiritual energy. The difference between each level was like a gully, and the fire dragon had the geographical advantage. No wonder everyone was defeated.

While Yun Chujiu was still deep in thought, the Fire Dragon's huge head turned to Yun Chujiu's side and spat a huge fireball at her!
