

The Yun Family's Ninth Child is an Imp! Chapter 376

Yun Chujiu teased the Fire Dragon so much that it could not rest at all.

It knew that this was the enemy's plan, but that little girl's words were too harsh. It could not bear it anymore!

After three rounds of tormenting for half a day, Yun Chujiu felt that the fire she stroked within the dragon was almost ready.

Leaving behind two elders to support the spirit shield, the rest left the shield and went straight for the Fire Dragon.

It saw everyone coming out and looked at them with contempt. They came out just in time. This Fire Dragon was hungry!

Yun Chujiu sat on the chopping board and ordered from behind, "Poke its eyes! Stab its anus! Its eyes and anus are its weak points!"

As expected, everyone went straight for the Fire Dragon's eyes and anus.

It looked at everyone with contempt again. 'Hmph! If I did not have horns, the places that you attacked would indeed be weak points. However, I'm not afraid of you attacking these two places at all. You're really courting death!'

Although they had strength in numbers, the Fire Dragon's body was very strong. When the swords and sabers struck it, it was akin to being dotted! Damage was not done to the Fire Dragon even after attacking its eyes and anus!

Fortunately, they had the spirit shield. When everyone felt that they were not a match, they would take turns to return to the spirit shield to rest. Therefore, even if they were injured, it was not a big deal.

The Fire Dragon was very proud. 'Sooner or later, your spiritual energy would be exhausted. I have a strong body. Even if I can't spit fireballs, I can eat all of you just by relying on my strong body!'

After a few rounds, the Fire Dragon saw that everyone was moving slower and slower. It became even more proud. The humans were about to die! In just a little while, they would become its delicious meal! It had been a long time since it ate human flesh, and it really missed it!

Therefore, when Yun Chujiu joined the battle on the chopping board, the Fire Dragon did not take it to heart. Although Thunder Root Spirit was rare, that tiny bit of lightning power was not a threat to it at all.

Yun Chujiu shouted loudly, "Attack its anus! I have chili noodles here. Put it in! Won't the chili kill it?!"

The Fire Dragon was furious when it heard that!

As expected, the little girl handed a few sacks to those people. Although the Fire Dragon had a strong body, it could not withstand chili noodles!

It tried its best to dodge and kept attacking the people with its claws.

Yun Chujiu smiled slyly and the chopping board suddenly flew above the Fire Dragon's head. It struck the Fire Dragon's red horns with several bolts of lightning!

The dragon's attention was focused on its hind, and it was completely unprepared. The horns were the weakest part of its body, and with Yun Chujiu's powerful lightning and continuous attacks, the red horns were cut off by Yun Chujiu!

The Fire Dragon cried out in pain as its huge body rolled on the ground.

Everyone was overjoyed, and they continuously attacked the Fire Dragon's eyes and its backside.

It was in unbearable pain. After the horns were cut off, the eyes and the butt of the Fire Dragon became vulnerable again. Very soon, it was worn down to the point that it could not fight back. After a while, the Fire Dragon lay on the ground motionlessly.

They used the eyes as a breakthrough point to cut the Fire Dragon, preparing to take out its demon core. That way, there would be no mistakes.

What everyone did not expect was that just as they saw the demon core and was about to take it out, a red light shot out from it and directly rushed toward Yun Chujiu who was watching the them!

As this red light was not an attack, the defensive spirit tool on Yun Chujiu's body was not activated. This red light directly shot into Yun Chujiu's forehead.

"That's not good! The Fire Dragon is trying to possess her!" Elder Qu shouted in shock.
