

The Yun Family's Ninth Child is an Imp! Chapter 384

Elder Xiao and the others were dumbfounded!

Oh my God! Was it not said that Fire Spirit Beasts were hard to find? They actually saw eight of them at once!

There were others who were there for months and did not even spot a single Fire Spirit Beast!

Yet, Little Jiu used a few big buns to fish up eight Fire Spirit Beasts? Had these Fire Spirit Beasts not eaten buns in their past lives?

'Are you all mutated beasts? Can you have some integrity? You actually took the bait just for a few buns?

'And those five small ones, no matter how you look at it, they seem to want to rely on Little Jiu!

'They were even playing into this game?!

'It was just that these three big ones that didn't seem to agree. What would Little Jiu do next?'

Everyone thought that Yun Chujiu would convince the three big Fire Spirit Beasts to go with. They did not expect Yun Chujiu to wave her hand at the five small Fire Spirit Beasts. "You guys can go back! Your elders are doing this for your own good! If you don't listen to them, you'll suffer a loss in the future. Hurry up and go back!"

Elder Xiao and the others wished that they could sew Yun Chujiu's mouth shut. 'Are you stupid?! If you say that, wouldn't we have wasted our efforts?!'

The three big Fire Spirit Beasts obviously did not expect Yun Chujiu to say that. They could not help but be a little confused. 'What did this human little girl mean?'

Yun Chujiu sighed. "Actually, I'm not that kind! I gave you food because I wanted to bring you back to the sect and use your earth fire to refine pills! Although the outside world is very interesting, and I'll provide you with good food, you still have to do something for us. So, you should listen to your elders and continue to stay in this dark cave! After all, it's very safe here!"

The three adult Fire Spirit Beasts hesitated after hearing Yun Chujiu's words. 'This human girl said it so bluntly, so it didn't seem like she's lying.'

Yun Chujiu continued, "I know that you Fire Spirit Beasts are very wary of humans. That's understandable. However, are you really willing to stay hidden in this cave for thousands of years? You don't see the sun all year round and can only eat ores. Besides, you don't seem to have any other abilities other than producing earth fire. With such a closed environment, you probably won't be able to advance forever.

"Moreover, I previously killed a Tier Twelve Fire Dragon. It's said that this Fire Dragon didn't exist before. What does that mean? It means that there are already high-level, fire-type demon beasts eyeing this place! Those demonic beasts might not be afraid of your earth fire. When the time comes, what awaits you will be a disaster of extermination! I, Yun Chujiu, don't dare to say anything else, but I can swear here that I absolutely will not harm you!"

Yun Chujiu's last few words had clearly hit the sore spot of the three big Fire Spirit Beasts. The Fire Dragon from before had tried several times to get to them, but perhaps its level was not high enough so it failed halfway through. If the Fire Dragon advanced again, it was very likely that it would be like what the little human girl had said. It would eat all of the Fire Spirit Beasts.

Perhaps, the arrival of this little girl was an opportunity for the Fire Spirit Beasts? She said that she had a heavenly Thunder Root Spirit, but she was not killed by the heavenly trials. There must be something special about her.

The three big Fire Spirit Beasts looked at each other and discussed for a while. Then, they brought the five little beasts and raised their front claws, bowing to Yun Chujiu!

Yun Chujiu was overjoyed in her heart, but she looked calm on the surface. “You’re following me? If that’s the case, squeak once. If not, squeak twice!”

Elder Xiao and the others’ hearts were in their throats. ‘Would these Fire Spirit Beasts really agree?’
