

The Yun Family's Ninth Child is an Imp! Chapter 398

Number Four had been a single beast for thousands of years. Now, he was willing to endure Number Three's domestic violence and was eager to acknowledge her as his master.

"We can't do the acknowledgement now. I'm afraid that if we make too much of a commotion, we'll attract heavenly thunder and be in trouble. Go into the Spirit Beast Pouch first! We'll do it when we return to Spirit Radiance Sect!" Yun Chujiu said after thinking for a moment.

Fire Spirit Beast Number One, Two, and Three were all dumbfounded!

'Master, didn't you say that only spirit beasts that acknowledge their master can enter the Spirit Beast Pouch? You lied to us! You're such a bad silver!

'However, the raw rice has already been cooked. Moreover, we've eaten our fill every day. So be it if you want to lie to us. Sob sob, this black-hearted master!'

As for the five small ones, they did not have any objections. They ate well and played well. 'Who cares if they lied to us or not!' When they heard that the Spirit Radiance Sect was even more fun, they were just waiting to go have fun!

"Number Three, do you Fire Spirit Beasts have any way to quickly extinguish the earth fire?" Yun Chujiu looked at the earth fire that was burning fiercely. She rolled her eyes and evil thoughts rose up in her mind. 'Who told you Heavenly Gates Sect to show off. I'll cut off your roots in an instant and leave you with no earth fire to use!'

Number Three nodded. "Master, after we form a seal, we can quickly extinguish the earth fire."

Yun Chujiu touched her chin. "Let's do it right away! I'll give you more food in a while! Extinguish all the earth fire! Don't leave a single piece!"

Number Three squeaked a few times, and the four big Fire Spirit Beasts began to stand up and form a seal with their two front claws!

The earth fire began to visibly extinguish.

After a quarter of an hour, the huge sea of earth fire was completely extinguished. Yun Chujiu put the Fire Spirit Beasts into her Spirit Beast Pouch in satisfaction and waved her hand at An Feng. "It's done! Let's go! Back to Spirit Radiance Sect! It just so happens that those old b*tches from Heavenly Gates Sect are also here, so I'll go scam them!"

An Feng silently made a decision in his heart. Even if he had to offend His Majesty, he must never offend Miss Jiu. She had too many schemes!

One could imagine how the people of the Heavenly Gates Sect would be furious when they discovered that not only had their Fire Spirit Beasts been stolen, but the earth fire had also been extinguished!

The two of them left the sphere of influence of the sect before the concealment talisman failed. They boarded their flying spirit tools and rushed to Spirit Radiance Sect.

Finally, one of the disciples guarding the earth fire cave noticed something amiss. "Have you noticed? Why does it feel a little strange?"

At first, the crowd did not think much of it, but the temperature was dropping more and more obviously. They were all shirtless and sweating, but now it was actually a little cold!

"I'll go take a look! You guys keep drinking!" The disciple who noticed the abnormality at the beginning left the house and went straight to the earth fire cave.

A moment later, the disciple's howl was heard. "Something's wrong! Something's wrong! Something's wrong! The earth fire has been extinguished!"

The disciples in the room scrambled inside and found that the earth fire had been extinguished. Not a single piece of it was left. It had completely been extinguished...

The elders of the Heavenly Gates Sect soon received the news. They tragically discovered that not only had the earth fire been extinguished, but they had also searched the cave hundreds of times and still had not found any traces of the Fire Spirit Beast!

Everyone was on the verge of collapse!

For thousands of years, the Heavenly Gates Sect had relied on this Fire Spirit Beast to earn countless Spirit Stones. They even relied on it to blackmail the other powers. Now, not only had the earth fire been extinguished, but the money tree had also disappeared!

After some discussion, they sent two elders to immediately take a flying spirit tool to deliver a letter to Sect Leader Du Guyi. "Sect leader, don't even think about using the earth fire to blackmail others. Our earth fire is f*cking gone!!"
