

## The Yun Family's Ninth Child is an Imp! Chapter 443

Yun Chujiu couldn't help but shiver. Oh My God, isn't this too shocking?!

This Elder Xiao had always called her Yun Chujiu, but now he actually called her Little Jiu. This was definitely her master's dream last night!

"Elder Xiao, the matter is like this! Yesterday, when I went to look for senior brother Feng Ming to play, I met senior sister Xu and senior sister Zhuo on the way. Senior sister Xu spoke ill of me, saying that I was shameless, useless, and so on. I could tolerate all of these, but her words actually implied that she was dissatisfied with the sect. She felt that the sect leader and the other elders were blind to have accepted a useless person like me as a successor disciple! "I couldn't take it anymore. Let alone my aunt and uncle! Therefore, I gently touched her with my foot."

"Before I knew it, she viciously threw out five wind blades! If I wasn't attentive, I wouldn't be alive right now! I was furious at that time! Originally, it was just a friendly exchange between fellow disciples, but she actually tried to kill me. I had to help her realize her mistake, so I used my foot to do it."

Xu Yan was so angry that she almost fainted!

In the past, she had heard that this Yun Chujiu could speak eloquently and had a quick wit. Now, she had finally seen it for herself!

This was twisting black and white, spouting nonsense!

She claimed she used her foot to lightly touch her, yet she flew more than a hundred feet away. She almost fell to her death!

Moreover, when did she say that the sect leader and the elders were blind?!

“Elder Xiao! Yun Chujiu is spouting nonsense! I didn’t say that the sect leader and the elders were blind!” Xu Yan hurriedly explained.

“Senior sister Xu, do you dare to swear to the heavens that you are not angry that I was accepted as a successor disciple? Do you think that the sect is too biased towards me? Is it too unfair to you? If you dare to swear to the heavens, I will let you do as you wish!” Yun Chujiu said confidently.

Xu Yan almost spat out a mouthful of blood. Did she dare to swear? That was exactly what she was thinking!

“You dare not swear, right?! Then prove that those words were not said by you! Let me remind you, you slandered the sect leader and all the elders!” Yun Chujiu pointed at Xu Yan’s nose and said loudly.

“Elder Xiao, although I thought so, I didn’t say it. I really didn’t say anything blindly!” In a moment of desperation, Xu Yan said what was in her heart!

Zhuo Piaoyu cursed silently. Yun Chujiu was obviously bluffing. She didn’t expect you to admit it yourself!

After Xu Yan finished speaking, she also knew that she had been fooled, but it was already too late... Elder Xiao snorted unhappily, “Xu Yan, do we still need to explain to you about the decision master Xuanyuan and the sect have made? We already know what Yun Chujiu is like. Moreover, is the first place finisher in the Great Void Mystic Realm’s trial not qualified to be promoted to a successor disciple?”

“The competition of the four great sects is about to arrive. As an inner disciple, you don’t cultivate properly and are always stirring up trouble. You really don’t want to improve yourself! Moreover, the Little Jiu only touched you with her foot, but you actually used a wind blade to retaliate. You are too ruthless!”

“However, it was Little Jiu who made the first move, so I will reduce your punishment. How about this! Although Little Jiu had violated the sect rules by beating up her fellow disciples, her intentions were

good. She was also doing this for the sake of the improvement of her fellow disciples, so she would be fined half a year's worth of sect resources! As for you, since you stirred up trouble and overreacted, you will also be fined half a year's worth of sect resources! If you don't repent and continue to stir up trouble, you will be demoted to an outer sect disciple! Alright, I still have things to do. All of you can leave now!"

Elder Xiao was in a hurry to tell the good news of his breakthrough to his old friends. How could he be in the mood to deal with such trivial matters? After saying that, he left in a hurry. Happily trotting off.
