

The Yun Family's Ninth Child is an Imp! Chapter 467

Two days later, Di Beiming had some matters to attend to and left the Linghua faction grounds.

Yun Chujiu started to wreak havoc again. Today, she would go to the West Peak to get some food, tomorrow, she would go to the East Peak to have some fun, and the day after that, she would go to the spirit herb garden to pick up a few herbs!

The only thing that made dissatisfied Yun Chujiu was that the heaven's Gate sect did not choose to use the fragment of the great void mirror in exchange for the Earth Fire. Yun Chujiu could only get some of the lowest grade demon beasts from the great void mirror to roast and eat. Other than that, it was useless!

In the end, the Heaven's Gate sect still compensated the Linghua sect with one-tenth of the share of spirit stones. Yun Chujiu also fought for one-hundredth of the share of spirit stones from Master Xuanyuan!

This fellow's heart was bubbling with joy. One-hundredth was a sustainable income. As long as the spirit stone mine continuously produced results, she would be able to make a profit.

As the great competition that happened once every thirty years in the four great sects approached, the entire Linghua sect began to get busy!

The first thing was the quota!

Only the inner and direct disciples of the four great sects were qualified to participate in the competition, and each sect only had a hundred quotas.

The Linghua sect had a total of thirty-three direct disciples, and the remaining sixty-seven were chosen by the inner disciples after the competition.

As Yun Chusi and the others were new disciples, their spiritual power and actual combat experience were not comparable to those old disciples, so they were not selected. The Bai siblings and Yun Chushan were also not selected. The only seedling of the new disciples was Yun Chujiu, the direct disciple!

Some of the old inner disciples had some complaints about this. Yun Chujiu was only at the fourth level of the spirit enhancement realm, so the lowest that could get a spot was at the ninth level of the Spirit Enhancement Realm! Yun Chujiu had wasted a spot for nothing!

Yun Chujiu did not care about the balance in other people's hearts. When she heard that she was going out to participate in the sect competition, her eyelashes immediately lit up with joy!

This was great!

She was going to die of boredom! It was a good time for her to go out for a stroll. If there was an opportunity, she could buy a few books and it would be even more perfect!

As for the results of the competition, well, we'll talk about it when the time comes! The plan did not change quickly. They just had to adapt to the situation!

Before leaving, Master Xuanyuan specially held a mobilization meeting. It was nothing more than to bring honor to the sect. The most important thought was that the results of the sect competition were related to the allocation of a portion of spirit stones, therefore, everyone had to do their best.

The share of the spirit stones was divided into ten portions, two portions for each sect. The remaining two portions were divided according to the results of the competition that took place thirty years ago.

Yun Chujiu suddenly understood. So it was for the spirit stones. No wonder the four great sects were all on steroids. She rubbed her chin and pondered. If she were to accidentally get another first place, would little Xuanyuan give her another portion of the spirit stones?!

Yun Chujiu immediately became spirited at the thought of earning spirit stones. She asked Feng Ming to find out what the competition was and what the process was like!

“Little Sister Jiu, the competition of the four great sects that is held once every thirty years is divided into two parts. The first round is the Wuwei Tower Trial, and the second round is the pill refining, artifact refining, array formation, and talisman making competition.”

“Oh, how are the two portions of spirit stones divided?” This was the focus of Yun Chujiu’s attention.

“After each round of the competition, one portion of spirit stones will be divided according to the results. One portion of spirit stones will be divided into ten portions. The first-ranked sect will get four portions, the second-ranked sect will get three portions, the third-ranked sect will get two portions, and the fourth-ranked sect will get one portion.”

“I see! This method is quite reasonable. What is the Wuwei Tower trial about?” Yun Chujiu nodded and continued to ask.
