

The Yun Family's Ninth Child is an Imp! Chapter 481

With a flash of white light, Yun Chujiu entered the seventh level of the Wuwei Tower.

When Yun Chujiu saw the scene clearly, she could not help but laugh out loud. "Oh my God, this seventh level is tailored for me!"

Yun Chujiu was currently deep in a forest. However, she was currently hanging on a huge spider web, a huge level eight gold-spotted poison spider was staring at her!

The gold-spotted poison spider felt that the little girl in front of it was most likely scared out of her wits! Otherwise, why would she be smiling at this moment?! Unless she was mentally ill!

The gold-spotted poison spider wanted to eat Yun Chujiu, but when it got closer, it realized that Yun Chujiu was covered in layers of spiritual energy! It spat out poisonous threads and began to corrode the spiritual energy barrier!

"Master, stop laughing! Although this poisonous spider is also a bug, its spiritual power is higher than mine, so it is not afraid of me!" Little Black said to Yun Chujiu.

Yun Chujiu giggled. "Little Black, don't worry, you don't have to do it. Master, I have a secret weapon! Hahaha! Furry, didn't you tell me the last time that you didn't have enough sweaters? Now we have a chance to create more!"

"Master! Have you forgotten? These are fake. Even if I extract the silk, it will disappear!" Furry pouted and flew out from between his brows.

Little Black stared with his pea-sized eyes, dumbfounded. 'What the Hell Is This?! Master, why do you always pick up trash?! Previously, he picked up a rolling pin, and now he picked up a ball of yarn?!'

Yun Chujiu heard what the ball of yarn said and coughed dryly, "Ah, that's true! But, let's get rid of it first! Let's finish this quickly so I can go dig for spirit stones. There will definitely be more spirit stones in this layer! Just thinking about it makes me excited, right?!"

The ball of yarn started to extract the silk!

The gold-spotted poison spider was dumbfounded!

The poisonous threads in its stomach were constantly being pulled out by the ball of yarn. These poisonous threads were sticky and poisonous!! Why did nothing happen to that ball of yarn?!

In the past thousand years, no one has ever been able to get past it!! Could it be that it had met its nemesis today?!

The ball of yarn muttered as it twined, "Tsk Tsk, the quality of this thread is really good! It's much better than the thread of the Mountain-drilling Dragon! If only this were real! I could knit a set of woven silk pajamas and wear it!"

The gold-spotted poison spider was about to cry when it saw the ball of yarn twining more and more vigorously. I'm not a freaking formation beast, I'm a real demon beast!

If all its poisonous threads were taken away, it would f*cking starve to death! What an embarrassing way to go! Sob, it was going to be the first gold-spotted poison spider to starve to death!

Just as the ball of yarn was vigorously extracted, Yun Chujiu shouted, "Furry, stop for a moment!"

"Master, why are you stopping? I'm getting more and more excited! This gold-spotted poison spider has so many poisonous threads! It's so satisfying!"

The gold-spotted poison spider's tears finally flowed!! It had never encountered such a situation before! It was being tortured to death!

"Furry, I feel that this gold-spotted poison spider in front of me seems to be a real demon beast. This beast is so expressive. In the beginning, it was disdainful, but after that, it turned into shock, and then it turned into fear and despair. It's simply too realistic, isn't it? The demon beasts we met before were all gritting their teeth!"

When the gold-spotted poison spider heard Yun Chujiu's words, it almost burst into tears. There was a door! This little girl was its last hope!

At this moment, the gold-spotted poison spider completely abandoned its dignity as a level eight demon beast. The two antennae in front of its head kept poking at Yun Chujiu!
