

The Yun Family's Ninth Child is an Imp! Chapter 495

After everyone exchanged pleasantries, Master Xuanyuan briefly talked about the matter of the Wuwei Tower Trial, Xue Wuji said with pride, "Little Sister Jiu is really smart. How can those idiots compare to Little Sister Jiu! Not to mention the ninth floor, even if it was the 90th floor, Little Sister Jiu would be able to pass it."

If it was any other time, Yun Chujiu would have been smug when she heard Xue Wuji's words. However, it was an emergency now, so it was better to keep a low profile. Otherwise, the gigolo would be furious again!

Hence, she just smiled and did not say anything.

"Little Sister Jiu is not only smart but also modest. If it were any other person, they would have been smug already. Look at Little Sister Jiu, she is calm and collected. I admire her!" Xue Wuji spoke with confidence and assurance.

Yun Chujiu was so angry that she gritted her teeth. Is this Black Chicken Head looking for trouble?! Yun Chujiu glared at him. She did not expect Xue Wuji to immediately say, "Little Sister Jiu, why are you winking at me? Do you want to have a private conversation with me?"

Di Beiming's eyes were like knives as he looked at Yun Chujiu. Yun Chujiu shrank her neck. She was about to cry because of Xue Wuji's stupidity. She did not know what this idiot was planning. It was obvious that he wanted to cause trouble!

Master Xuanyuan saw that the atmosphere was tense and quickly changed the topic. "Little Jiu, I haven't had the chance to ask you. Why did you get a negative score in the first place when you were training in the Wuwei Tower?"

Yun Chujiu blinked her eyes and laughed dryly. "Hehe, it's actually nothing much. I just dug out the spirit stones from each layer of the formation disks, and I even packed a few for myself!"

Everyone...

What the hell?!

You went to practice, and then packed the other person's formation disk?

What was the difference between this and going to a restaurant to eat and then packing the other person's food?!

It was too lenient to just give you a negative score!

This girl was so greedy that she had reached a new realm of greed!

After Elder Qu recovered from his shock, his eyes lit up as he said, "Little Jiu, quickly take out that formation disk. This old man has opened his eyes!"

Yun Chujiu said in a narrow-minded manner, "Okay I'll take it out, but you can't snatch it! This is something that I worked hard to dig out."

The corners of everyone's eyes twitched. Why did it feel so awkward to see the word 'work hard' used here?!

Yun Chujiu took out a formation disk and placed it on the ground. Everyone gathered around and clicked their tongues in wonder.

Xue Wuji also came over curiously. "Yo, the material of this formation disk is made of ten-thousand-year-old black iron. It's really extravagant!"

Yun Chujiu really did not look carefully. When she heard Xue Wuji say that, she immediately laughed. “Hahaha! I’m Rich! I’m Rich! It’s really a pity that I can only enter the Wuwei Tower once. Otherwise, I’ll definitely go ten or eight times and get all the formation disks!”

Everyone...

Master Xuanyuan looked at the groove on the formation disk. “Little Jiu, what kind of spirit stones are inside?”

Yun Chujiu answered without hesitation, “High-grade spirit stones. Each of them contains ten high-grade spirit stones.”

Master Xuanyuan’s eyes flashed as he thought to himself, ‘you little girl, who are you trying to fool?!’ The materials of the array board were all so rare. How could there be high-grade spirit stones in the grooves? It must be top-grade spirit stones. This little girl had profited quite a lot in this trial!

Elder Qu was unable to put it down. However, Yun Chujiu had spoken first, so he had no choice but to let Yun Chujiu keep the formation disk and prepare to return to the sect to borrow it for research.

“Oh right, Little Nine, how did you discover the formation core? Do you know formations?” Elder Qu asked curiously.
