

The Yun Family's Ninth Child is an Imp! Chapter 512

After a while, a disciple of the Heavenly Gates sect indicated that the talisman he had made was completed. Soon after, another disciple indicated that he had finished making the talisman. Other than the first disciple, everyone else had finished making the flame talismans.

Yun Chujiu's mind was not on who had won first place. Instead, she asked Xue Wuji with a smile, "Brother Wuji, is this talisman very expensive?"

"Of course. The higher the level of the talisman, the more expensive it is. "Not only the talisman, but also the spirit tool, the array formation, and the pills are all very expensive. This is because learning those skills not only diverts the energy of cultivation, but also not everyone can learn the four techniques of cultivators. Many people who have learned it for decades can not even be considered a second rank warlock, so talent and comprehension are very important," Xue Wuji explained patiently.

As soon as Xue Wuji finished speaking, he saw Yun Chujiu laughing foolishly. He curiously waved his hand in front of Yun Chujiu's eyes and said, "Little Sister Jiu! Little Sister Jiu! What are you laughing about?"

Yun Chujiu finally came back to her senses and said with a bright smile, "I'm thinking if I can learn all four techniques, will I be able to make a fortune?!"

The surrounding disciples of the Linghua sect could not help but curl their lips. This Yun Chujiu did not know the difference between heaven and earth! Thinking she could learn all four techniques, it would be amazing if you were able to even learn just one!

It was said that this Yun Chujiu was refining pills with elder Qi, and she had once made a name for herself in the pill refining room. After that, there was no word on further progress. It was probably due to sheer dumb luck! Otherwise, with Yun Chujiu's arrogant personality, she would have already shown off!

There had never been anyone in the Qing Xuan continent who could master two of the four arts at the same time. Yet, Yun Chujiu was still fantasizing about learning all of them. It was simply a pipe dream!

Xue Wuji was also amused by Yun Chujiu. “Little Sister Jiu, although your courage is commendable, there are some people in the Tian Yuan continent who are exceptionally talented, but they have only mastered two arts. Moreover, among the two arts, one is the main one and the other is the supplementary one, not to mention mastering all four at the same time!”

Yun Chujiu curled her lips disapprovingly. “What’s so difficult about that? Don’t they all need spiritual power and spiritual sense? At least this talisman and alchemy are about the same. In a while, I’ll look at the artifact refining and array formation.”

Di Beiming, who was at the side, could not hold it in anymore. He snorted coldly. “You’re overestimating yourself!”

Yun Chujiu acted as if she did not hear him. She did not even look at him as she focused all her attention on the artifact refining competition on the stage!

The armament refining competition took a much longer time. Yun Chujiu yawned as she watched. “This armament refining is really laborious! That piece of refined iron has been hammered at least a thousand times. No wonder the spirit weapon is sold at such an expensive price!”

“This is still a mortal grade spirit weapon. If it is a middle grade spirit weapon, it will take at least a few months or even a year to forge. The higher the grade of the spirit weapon, the longer it will take, and the more precious the materials used.” To gain a good impression, Xue Wuji told her everything he knew, there was nothing he couldn’t say.

“Yup, if I can learn how to refine this weapon, I’ll refine it for myself. If I use it to earn money, it’s not worth it!” Yun Chujiu said while stroking her chin.

The surrounding disciples of the Ling Hua sect were all speechless. This Yun Chujiu was really superfluous and overconfident. Her words made it seem like she already knew how to refine weapons. She was really shameless!

Xue Wuji thought the same in his heart. However, he said with a smile, "Little Sister Jiu, when you learn how to refine weapons, you must give me a spirit weapon!"

"Humph! As long as there are materials and Spirit Stones, I promise to refine a top-notch spirit weapon for you! Little Jiu's products are top-notch!" Yun Chujiu said smugly.
