

The Yun Family's Ninth Child is an Imp! Chapter 532

"Little girl, what should we do next? The alliance leader will definitely send someone to rush me," Gold Face asked.

"The most important thing now is to destroy the array core. Otherwise, the reinforcements from outside won't be able to come in. Now, let's split up into smaller groups. Gold Face will bring me to the array core, and you guys will also go there separately. In order to differentiate you guys from the rest, you guys have to have some sort of mark."

Yun Chujiu rolled her eyes and took out two red scarves from her storage ring. She tore them into small strips and handed them to the gold-masked man and the assassins. "How about this? Each of you tie a red scarf on your head to prevent my Prince Charming from accidentally injuring you."

The corners of everyone's eyes twitched, but they still tied the red scarf on their heads.

Yun Chujiu nodded in satisfaction. "With that, let's go! Gold Face, you lead the way. I'll activate the concealment talisman and follow you. We have to speed up, lest that old bastard finds us."

Gold Face nodded. Everyone left the courtyard and followed Yun Chujiu's instructions to disperse to the location of the array core.

After a quarter of an hour, Yun Chujiu followed Gold Face in circles and arrived in front of a cave.

There was a team of guards in front of the cave, and a total of six people. Yun Chujiu could not see through the other party's cultivation, so they must be above the second level of the Spirit Cultivator realm.

After those people discovered the gold-masked man, the leader frowned. "Commander Shawu, why are you here? Did the alliance leader give an order?"

“That’s right. He asked me to go in and check if the array disk is working properly.”

“I see. Then let me have a look at the leader’s token.”

“Okay! Please step aside for a moment. The alliance leader has a secret order for me to pass on to you.”
The gold-masked man winked at the leader.

That man thought it must be something good and immediately beamed with joy. “Commander Shawu, you’re too courteous. Alright, let’s go over there and chat.”

When the two of them reached the hidden area, the man asked anxiously, “Commander Shawu, what message does the chief want you to pass on to me?”

“The chief wants you to accompany him underground!” Before Gold Face’s voice had faded, Yun Chujiu’s rolling pin had already smacked that person’s head open!

“Two of you, get here! Your leader doesn’t look too well!” Gold Face shouted at the remaining five people at the entrance of the cave.

Two of them quickly ran over. Before they could figure out what was going on, one of them was smacked to death by the invisible Yun Chujiu while the other was killed by Gold Face..

However, the commotion caused by the fight between the golden-masked man and the other men alarmed the remaining three guards.

Fortunately, Gold Face’s men already rushed over and killed the remaining three guards in no time!

“The six of you change into their clothes and stand guard here. The rest of you hide in the dark and act according to the situation! If that old bastard comes, there’s no need to fight head-on. Save your strength.” Yun Chujiu kept the concealment talisman and revealed herself.

After everyone nodded, Yun Chujiu and Gold Face entered the cave.

“Gold Face, there are only six people guarding the formation’s core? Isn’t this too casual?” Yun Chujiu felt that something was amiss. The formation core was the most important thing, how could there only be six people guarding it.

Gold Face smiled bitterly. “Of course not. There’s a Tier Nine Purple-striped Venomous Python at the formation’s core. Although you have the concealment talisman, the python is very sensitive to smell. I hope you’ll be able to deceive it. I’ll attract its attention in a while. You take the opportunity to destroy the formation disc at the eye of the formation.”

“Gold Face, take these demon beast corpses. Use them to attract the Purple-striped Venomous Python’s attention. Pay attention to your safety. I’ll try to finish the battle as soon as possible!” After Yun Chujiu transferred the demon beast corpses to Gold Face, she activated the concealment talisman again and followed Gold Face into the cave.
