

The Yun Family's Ninth Child is an Imp! Chapter 576

Perhaps the heavens heard Zhuo Piaoyu and Ding Lang's thoughts because demonic beasts came knocking on their door that night.

Dozens of mine wolves were drooling as they surrounded the crowd.

Wu Yanyu was so frightened that her face turned pale. "Oh my God, there are so many wolves. We can't possibly beat them at all. We'd better run quickly!"

"Can you run faster than these wolves? We can only fight!" Zhuo Piaoyu said. There was a hint of excitement in her voice. 'Yun Chujiu, your time to die has come!'

At such a dangerous time, it was normal if they could not protect her. Once this b*tch died, she would take out the explosive talisman given to her by her father and scare the wolves away. At that time, she would say that she was nervous and forgot about the explosive talisman. No one could blame her.

"Since you insist on fighting, there are sixty mine wolves in total. Each of you take down six. Whoever that's not doing well, just wait to be eaten by the mine wolves!" Lu Shi was Zhuo Piaoyu's loyal admirer. He had long disliked Yun Chujiu.

Yun Chujiu glanced at him. "Each of us take six? Do you mean that no one should help each other?"

"That's right! Since you have chosen to come to this trial, you must be aware of the dangers you encounter. No one has the obligation to save anyone! If you can't beat them, you can only blame yourself for not cultivating enough." Lu Shi said meaningfully. Although it was very difficult to deal with six mine wolves, and they might even lose half of their lives, they could still rely on spirit tools and talismans. However, Yun Chujiu was dead for sure.

“Alright, if that’s the case, then we’ll do as you say. Each of us will have six mining wolves. Except for Senior Brother Feng Ming and the other two, whoever asks me for help is a slow bastard,” Yun Chujiu said with a smile.

Lu Shi could not help but sneer, “Don’t worry, even if I, Lu Shi, are bitten to death by the mining wolves, I won’t ask you to help. You really overestimate yourself, speaking without fear like that. The first one to be bitten to death will be you! Trash at the eighth level of Spirit Enhancement!”

If Feng Ming and the other two had heard Lu Shi’s words a few days ago, they would have been very angry, and would even have accused him of not caring about the friendship between fellow disciples. However, after they found out that Yun Chujiu had the Heavenly Thunder Root Spirit, they felt that Lu Shi was like a clown jumping up and down after hearing his words. It was truly laughable. They were just waiting to be slapped in the face later!

Zhuo Piaoyu saw that Feng Ming and the other two did not say anything to defend Yun Chujiu, and she was secretly delighted. ‘HMPH, regardless of how well he usually takes care of Yun Chujiu, he still abandoned her at such a critical moment. It seemed that Senior Brother Feng Ming didn’t actually care about her at all.’

Yun Chujiu, just wait to be eaten by the mining wolves!

At that moment, the mining wolves had already surrounded them. Looking at the group of people in front of them, their deep blue eyes were filled with greed.

“Let’s attack at the same time and split up the wolf pack! Each of us will deal with six!” Zhuo Piaoyu was afraid that Feng Ming and the other two would go back on their words, so she took out her sword and slashed at the mine wolves while shouting.

Lu Shi and the others also jumped into the wolf pack and began fighting the wolves.

“Junior Sister Little Jiu, do you need our help?” Although Feng Ming felt that Yun Chujiu, this little pervert, did not need anyone else, he still asked.

“Senior Brother Feng Ming, since you are so kind to ask me, I am also embarrassed to not accept your kindness. You three protect me in the middle, I will take a rest first,” Yun Chujiu said shamelessly.

‘What are you resting for?!’

‘You must be playing some dirty tricks again, right?!’

Although Feng Ming and the other two were cursing in their hearts, they still protected Yun Chujiu and started to fight the wolves that pounced on them.

Zhuo Piaoyu saw this scene while fighting and was so angry that she wanted to vomit blood. Finally, she exploded, “Yun Chujiu, are you that shameless?!”
