

## The Yun Family's Ninth Child is an Imp! Chapter 596

Yun Chujiu could not think of any good ideas. However, it was also a coincidence that she found a heart-shaped haze stone when she was mining. This girl took a large kitchen knife and carved the words "Happy birthday" in the middle, and signed, "Love you to the point of falling apart, Little Jiu."

She appreciated it with satisfaction for a while and then carefully put away the stone! 'Sob sob, I really want to see how this gigolo breaks down!'

'Damn it! I don't know if this ancient mine has a spirit tool. If we can find a spirit tool, it will definitely have a way to teleport us out!'

Thus, this fellow began to shout toward the sky, "Hey! Is there a spirit tool in this ancient mine? Is it so ugly that it can't be seen? Get out here right now! Otherwise, I will scold you a hundred times every day!"

The corners of Feng Ming and the other two's eyes twitched. What was Junior Sister Jiu up to this time?!

This ancient mine did not have spirit, so how could there be a spirit tool?!

Sure enough, Yun Chujiu shouted for a long time, but there was no response. Yun Chujiu was a little discouraged. It seemed that this ancient mine was different from the Great Void Mystic Realm. The Great Void mystic Realm was the interstitial space within the mystic realm. This ancient mine was not an artifact, so it would not produce a spirit tool.

"Sigh! It seems that this shabby place does not have a spirit tool. Speaking of which, this place is a wasteland. It's impossible for a spirit tool to be produced. I know! If I can find the formation core of this ancient mine, it will be easy! Activate the teleportation formation, and we can be transported out! If it really doesn't work, we can also leave by closing all the formation cores!" Yun Chujiu mumbled.

“Junior Sister Little Jiu, wake up! Are you talking in your sleep in broad daylight? The formations in this ancient mine are all ancient formations from ten thousand years ago. Not to mention you, even ten thousand Elder Qu’s combined wouldn’t be able to find the formation. If they were discovered so easily, this ancient mine would have been mined out long ago.” Feng Ming felt that Yun Chujiu was simply dreaming.

“Yes, Junior Sister Little Jiu, don’t waste your effort. If you have this much effort, you might as well spend it digging the haze mine more!” Geng Yi also felt that Yun Chujiu’s idea was too whimsical.

“Junior Sister Little Jiu, are you tired? If you’re tired, just sit by the side and rest for a while. We can dig.” Shi Xuan felt that this was Yun Chujiu’s little trick to be lazy.

Yun Chujiu was so angry that she snorted. “Senior Brother Shi Xuan, am I the kind of person who slacks off?! Alright, I’m indeed a little tired. I will go to the top of the mountain and wander around to see if I can discover anything new.”

Shi Xuan and the other two were speechless.

Yun Chujiu climbed to the top of the mountain and looked at the surrounding terrain. Her eyes hurt from looking at it, but she did not find any valuable clues. Speaking of which, how could the ancient formation be so easy to break?!

From that day on, Yun Chujiu stood on the top of the mine and looked around every day. Sometimes, she even took out a pen and paper from her storage ring to write and draw.

“Feng Ming, do you think Junior Sister Little Jiu is really looking for the array core?” Geng Yi looked up at Yun Chujiu who was like a fraud on the top of the mountain and said.

Feng Ming said in a low voice, “I think looking for the array core is probably a sham, but being lazy is real. Look at her three pets. Aren’t they all basking in the sun?! It’s not that I want to say this, but those

two are already so black, what's the point of basking in the sun?! Even Junior Sister Little Jiu isn't afraid of turning into a tan girl when she basks in the sun so much."

Yun Chujiu's spiritual power was higher than theirs, so Yun chujiu heard Feng Ming's self-righteous low voice. Yun chujiu gritted her teeth and said, "Senior Brother Bird, do you not want to eat lunch anymore?!"
