

## The Yun Family's Ninth Child is an Imp! Chapter 666

The pressure was getting heavier and heavier. The low-level beasts in the forest were all crawling on the ground, shivering. The high-level beasts were not any better off. Their hearts were about to jump out of their chests!

'Oh God, what on Earth was going on?!

'The Heavens have never been so angry before. Which ancestor offended the Heavens?!

Yun Chujiu did not know what was happening outside. She was still scolding Heavens recklessly. "Heavens! You old bastard! You're hiding in a turtle shell, but you never come out even if you have the ability! If you don't strike today..."

Just as Yun Chujiu said 'strike', a deafening thunder rumbled!

Yun Chujiu was so happy that she almost jumped up. That was great! The heavenly thunder had finally struck!

In the beginning, the heavenly thunder had only struck the top of the cave. It seemed that it had not destroyed the formation yet.

Yun Chujiu could not help but admire the person who set up this formation. The heavenly thunder had struck for so long without destroying it. It would be great if the formation was that powerful!

The fox king and its subordinates were all trembling in fear. 'It's too scary! We have lived for hundreds of years, but we have never heard such a dense thunder. This little girl has completely infuriated Heavens!'

'Sob sob, I wonder what heavenly lightning looks like. After the formation is destroyed, it won't accidentally injure us, right?!

It has to be said that this formation was extremely sturdy. After the dense heavenly lightning struck for a full hour, the formation began to crack.

The heavenly lightning struck toward Yun Chujiu through the crack!

Flaming Three Tailed Fox King closed its eyes. 'It's over! This little girl is done for! Sigh, this little girl could be considered to have sacrificed herself for the sake of the beast. Have a safe journey!'

After a while, the heavenly lightning was still rumbling. The fox king opened its eyes to take a look. It could not believe what it saw. That little girl was actually fine?! Moreover, she was still jumping around!

At first, it thought that she was avoiding the thunder, but it turned out that she was deliberately drawing the thunder to strike those mineral veins.

After striking down some ores, she put some into her storage ring. She was really busy.

The Flaming Three Tailed Fox King was dumbfounded!

F\*ck!

This little girl was really willing to sacrifice her life for money!

She actually used heavenly lightning to help her mine ores?!

Oh My God, could it be that the outside world had undergone tremendous changes in the past 40 years? Were humans so abnormal? Not only were they not afraid of being struck by lightning, but they actually let the heavenly lightning work for them?

At that moment, Yun Chujiu only had one word in her heart—beautiful!

'I'm simply too smart!

'By continuously dodging, not only can I get these silly heavenly lightning to help me release the ores, but I can also get these ores to help me block a portion of the heavenly lightning. It's really killing two birds with one stone!'

As the heavenly lightning bolts descended, the ceiling of the cave began to collapse. However, Yun Chujiu was not afraid of being crushed to death by the rocks. The rocks above her had already been reduced to ashes by the heavenly lightning bolts.

The Flaming Three Tailed Fox King was in a miserable state. They could not withstand these rocks. However, if they were to hide beside Yun Chujiu, they would not be afraid of being accidentally injured by the heavenly lightning bolts. It had to watch carefully. The heavenly lightning bolts did not have good eyesight, as more than half of the heavenly lightning bolts did not strike the little girl. They were all used by the little girl to split the ores.

The Flaming Three Tailed Fox King could only pitifully call out to Yun Chujiu, hoping that Yun Chujiu could help them. Yun Chujiu did not make things difficult for them. She told them not to resist, and then put them into the spirit beast pouch.
