

## The Yun Family's Ninth Child is an Imp! Chapter 667

After Flaming Three Tailed Foxes entered the spirit beast pouch, they saw that there were already three other beasts inside.

A Mighty Elephant cub? A Fire-Breathing Crow? And a Tailless Burrowing Rat?

The fox king had a look of disdain. 'Although this little girl's abilities aren't bad, the spirit beasts she took in are really bad, right?!'

Only the Mighty Elephant could be considered passable, but it was a pity that it was still a cub. That Fire-Breathing Crow and Tailless Burrowing Rat were simply too weak!

Little Black was very shrewd, and immediately saw through the Flaming Three Tailed Fox King's intentions. He cursed in his heart, 'You shameless bastard, just you wait! Wait until Master leaves, and see how I will deal with you!'

'HMPH! After master advances, I will definitely advance as well. When that time comes, I will beat you up until you find your teeth all over the ground!'

Yun Chujiu did not know about the internal strife in the spirit beast pouch. At that moment, she was jumping around happily, trying her best not to waste every bolt of heavenly lightning.

When she left later, these mineral veins might not be able to be preserved. At that moment, if she could get more, she would get more. TSK TSK, no matter who was mining, they would not be as efficient as her! A bolt of heavenly lightning would be able to produce a large piece. It was simply too satisfying! Compared to the heavenly lightning, those explosive talismans were simply too weak!

In such a short period of time, the ores she obtained were comparable to the ores that thousands of people had mined for half a year!

At this time, the cave had already begun to collapse non-stop, and the heavenly lightning was gradually gathering toward Yun Chujiu.

Thanks to her recent escapes, Yun Chujiu felt that her physical strength was really great. After jumping around for so long, she was actually not tired at all. She was really pissing the clouds off!

The dark clouds in the sky gradually realized Yun Chujiu's intention, and they were so angry that they almost cringed to death!

F\*ck!

Yun Chujiu actually used them as free labor!! She actually made them help her mine ore?! It was intolerable!

Hack her! Kill her!

More concentrated heavenly thunder struck Yun Chujiu!

Of course, there were some who did not put in any effort, especially Little Dark Cloud, who was on good terms with Yun Chujiu. The lightning that struck down from it struck the mineral vein.

The strange grass and the great Void Mirror in Yun Chujiu's Dantian had become stronger than before. Hence, the ability to absorb the power of lightning was also much stronger. It continuously absorbed the power of lightning that surged into Yun Chujiu's Dantian.

However, this time, it was obvious that Heavens was extremely angry. Almost all of the dark clouds gathered there. Streaks of purple lightning that were as thick as an adult's wrist continuously struck down at Yun Chujiu who was in the cave.

Yun Chujiu gradually could not take it anymore. She was also unable to jump and could only sit cross-legged.

The moment she stopped and did not move, the purple heavenly lightning did not have any problem striking accurately. Streaks of heavenly lightning struck down at Yun Chujiu one after another.

Yun Chujiu could only try her best to absorb the heavenly lightning and inject it into her Dantian. However, even though her meridians had been cleansed by her, they were still unable to withstand such violent heavenly lightning.

After the violent heavenly lightning entered her meridians, it continued to rampage. If this continued, Yun Chujiu would explode like a balloon.

At that moment, a figure jumped down from above and continuously formed seals to help Yun Chujiu block the heavenly lightning.

Gigolo?!

Yun Chujiu hurriedly shouted, "Prince Charming, get out quickly! I can do it! You will be struck to death!"

Di Beiming was unmoved and glared at her. "Stop talking nonsense and quickly channel the thunder spirit force in your body into your Dantian. When I can't hold on anymore, you will be struck again!"
