

## The Yun Family's Ninth Child is an Imp! Chapter 694

Yun Chujiu noticed that An Feng was staring at her cloak, but she didn't seem to be embarrassed at all. She smiled and asked An Feng, "Little Madman, do you want one too? I still have a lot of materials to make more. If you want one, you can have this one!"

An Feng shook his head like a rattle-drum. He would only want it if he was crazy. If the Palace Mistress found out about this, his good days would come to an end!

"Forget it if you don't want it. I'll make one for my Prince Charming some day. He'll definitely like it."

An Feng thought to himself, 'It would be the end of the world if he liked it! He had yet to see anyone who looked good with that carpet draped over their bodies!'

"Young master, if it doesn't work out, let's go around the ice field in front of us and head straight to the river valley to train." An Feng said worriedly when he saw that the temperature dropped continuously.

"I'm here to train, not to play. I want to face any difficulties head-on. Let's go, I haven't seen the ice field before. The demon beast meat on it must taste good."

An Feng...

The last sentence revealed what was really on your mind!

The further they went, the colder it was. Fortunately, both of them had spiritual powers to protect their bodies, so they could endure it.

Finally, they saw a vast expanse of white from afar. They had arrived at the ice field.

“Little Madman, will there be demon beasts here? What do they eat?” Yun Chujiu asked with curiosity.

An Feng was also here for the first time so he also didn't know much. “Young master, this... I know that there are many demon beasts in the icy plain in the far north. They mostly feed on the fish, prawns, and sea beasts in the icy lakes. However, there are no icy lakes here. If there are no sources of food, perhaps there won't be any demon beasts here.”

“Let's go and take a look first. If there are no demonic beasts, we'll take a detour.” Yun Chujiu frowned. If there were no demonic beasts, then what was the point of the trial?!

“Eh? There is a stone tablet here!” Yun Chujiu noticed a stone tablet that was half the height of a human standing in front of her and ran over curiously.

There were many words carved on the stone tablet. The general meaning was that this Chimeric Icefield was extremely dangerous. The demonic beasts inside were very ferocious and the climate was unpredictable. Most importantly, it was forbidden to fly and use talismans. If they encountered danger, it would be very disadvantageous.

“Young master, why don't we take a detour?” An Feng saw that this since the ice field was so dangerous, he wanted to persuade Yun Chujiu to give up on entering the trial.

“How can I grow if I keep avoiding danger?! Let's go take a look first. Hmm, no, nevermind. Let's take a detour!”

An Feng...

After the two of them entered the ice field, they realized that the it was not quite the same as what they had imagined.

Yun Chujiu was extremely curious. She forced Little Black Rat to dig into the ground to see what the structure was made up of.

Little Black Rat could break through rocks easily, so digging into the ice field was not a problem.

After a while, they dug thirty feet deep before climbing up from below.

“Master, the top consists of about fifteen feet of soil, and the bottom is full of ice!” Little Black Rat explained her findings.

Yun Chujiu nodded. “Fifteen feet of soil is enough for plants to grow. Although the temperature here is very low, some plants can withstand the cold. That’s why there are demon beasts here. Let’s go, I can’t wait to see the ferocious demon beasts of the Ice Field!”

Sure enough, after walking for a while, they could see some moss and low-level ice field plants. Some low-level Glacial Snow Rabbits and Glacial Snow Deer started to appear.

Yun Chujiu’s eyes lit up...
