

The Yun Family's Ninth Child is an Imp! Chapter 698

Yun Chujiu rolled her eyes and took out a rock from her storage ring. She threw it to the side of the Ten-Thousand-Year-Old Snow Ganoderma. This rock was like a bucket of cold water that was thrown into a hot pot of oil. The earth-shaking roar of a beast rang out.

Yun Chujiu was shocked. 'F*ck! What kind of beast's roar is that terrifying?'

A huge demonic beast stood up from behind the Ten-Thousand-Year-Old Snow Ganoderma. Only then did Yun Chujiu realize that there was no ice or snow behind the Ten-Thousand-Year-Old Snow Ganoderma. Instead, there were two huge Tier Eight Earth-shattering Ice Bears. Their fur was as white as snow so it was hard to notice them.

This Earth-shattering Ice Bear was about half the size of the Mighty Elephant. Its snow white fur sparkled under the sunlight as one of them pounced toward Yun Chujiu.

Yun Chujiu quickly dodged to the side. She could not help but wonder if the bears thought that they were too weak, so only one attacked them. Why was the other one lying there and not moving?

The Earth-shattering Ice Bear suddenly opened its mouth, and several huge ice arrows shot toward Yun Chujiu.

"Tsk! You have some skills, Little Bear! Not only are you strong, but you can even spit ice arrows! I'll play with you for a while!" Yun Chujiu said as she fought with the Earth-shattering Ice Bear.

An Feng was speechless. 'This Earth-shattering Ice Bear was dozens of times bigger than you, and you're calling it a little bear?'

Yun Chujiu saw that the Earth-shattering Ice Bear was furry and cute, so she did not use her spiritual power to attack, but kept dodging and attacking with her fists and feet. It was a good time to practice her movement techniques.

The Earth-shattering Ice Bear was very annoyed. It kept attacking Yun Chujiu with strange cries. However, its body was huge, so it was inevitable that it was not so agile. Before its claws could hit Yun Chujiu, Yun Chujiu had already turned behind it and kicked its butt.

Although it was huge and a kick would not hurt it, it still hurt!

Yun Chujiu felt that this sparring partner was really great! Not only was its body strong, but it could also spit ice arrows. Most importantly, she was not afraid of hurting it when she attacked. It was simply a great sparring partner!

An hour later, Yun Chujiu was still alive and kicking. However, the Earth-shattering Ice Bear was so tired that it was panting. Its heart was broken!

'F*ck! Where did this abnormality come from!!'

'He didn't even use his spiritual energy to attack me. Could it be that he wanted to tire it to death?! Would it become the first Earth-shattering Ice Bear to die from exhaustion in the Chimeric Icefield?'

"Little Bear, come on! Why aren't you biting me anymore?" Yun Chujiu was having fun when she saw the Earth-shattering Ice Bear unmoving. She hooked her finger at it.

The Earth-shattering Ice Bear roared angrily and pounced again!

Another hour passed, and the Earth-shattering Ice Bear was so tired that its tongue was stuck out. It panted heavily and simply threw itself on the ground. 'Ahh, do what you want! F*ck, I'm so tired!'

The other Earth-shattering Ice Bear saw that its companion was exhausted and ran over while howling and limping.

Yun Chujiu then realized that one of the Earth-shattering Ice Bear's legs was seriously injured and was bleeding non-stop. The Ten-Thousand-Year-Old Snow Ganoderma had the effect of stopping bleeding, so why did it not eat it? It was really strange!

"Stop! I don't mean any harm. I'm a peace-loving little angel. Let's have a good talk."

The corner of An Feng's eyes twitched. 'Miss Jiu, it would be more convincing if you moved the rolling pin away from the other bear's neck when saying that.'
