

The Yun Family's Ninth Child is an Imp! Chapter 699

As expected, the injured Earth-shattering Ice Bear stopped where it was and stared at Yun Chujiu fearfully.

“Little Bear, is there something wrong with your head? Your leg is injured, why don't you eat the Snow Ganoderma? Then, won't your injury be healed after just a small bite?” Yun Chujiu asked curiously.

The injured Earth-shattering Ice Bear showed a disdainful expression, obviously thinking that Yun Chujiu's question was stupid.

Yun Chujiu was furious. ‘Damn it, you stupid bear. How dare you look down on me?!’

Yun Chujiu raised the rolling pin and hit the back of the bear on the ground. The bear cried out in pain, but it was too tired and did not even have the strength to stand up and run.

The injured Ice Bear immediately collapsed and cried out a few times. However, Yun Chujiu did not understand the language of beasts, so she naturally did not know what it meant.

“What nonsense are you talking about? I don't understand! Repeat it!” Yun Chujiu pouted and said.

The injured Earth-shattering Ice Bear was smart. Seeing that Yun Chujiu did not understand, it rolled its eyes and decided to demonstrate with its actions. It limped in front of the Ten-Thousand-Year-Old Snow Ganoderma and stretched out its huge claws toward the snow ganoderma. Then, something strange happened!

Its claws were blocked by an invisible barrier. It could not touch the Ten-Thousand-Year-Old Snow Ganoderma at all. Even though the Earth-shattering Ice Bear slammed the barrier, it could not break it.

Yun Chujiu's interest was piqued. Interesting!

Could it be that the Ten-Thousand-Year-Old Snow Ganoderma had a protective barrier?!

Yun Chujiu blinked her eyes. She threw a supreme-grade blood coagulation pill to the injured Earth-shattering Ice Bear. "I'm a soft-hearted person. This is a pill to stop bleeding. It's up to you whether you want to eat it or not. Let me see what's going on with this Ten-Thousand-Year-Old Snow Ganoderma. All of you be good. If I can open this shield, I'll give you a piece of Snow Ganoderma."

The injured Earth-shattering Ice Bear saw that Yun Chujiu did not kill its companion. Instead, it jumped to look at the Ten-Thousand-Year-Old Snow Ganoderma. After hesitating for a while, it gritted its teeth and ate the supreme-grade blood coagulation pill. The climate of the Chimeric Icefield was cold. If it did not stop bleeding, its legs would be crippled. If its legs were crippled, it would be difficult to get food in the future.

After a while, it realized that its legs were really not bleeding anymore. It pounced on the bear that was still panting on the ground and cried out excitedly.

The other bear also took on its happy mood and cried out weakly.

After a while, the bear on the ground regained its strength. The two bears came to Yun Chujiu's side and sat down obediently. They drooled as they waited for Yun Chujiu to take out the Ten-Thousand-Year-Old Snow Ganoderma and give it to them.

An Feng looked at the scene in front of him with a dumbfounded expression.

He pinched his own arm and grimaced in pain. Did they not say that demon beasts and humans were like fire and water? Why was Miss Jiu always able to make peace with these demon beasts?

The three-tailed Fox King who shamelessly wanted to recognize her as its master, the Mighty Elephant who helped her before, and these two were bought over by a blood coagulation pill?

'Aren't you guys a little too bold? You dare to eat the pill that humans gave you? Aren't you afraid that it's poison? Besides, are you guys that superstitious and confident in Miss Jiu? You didn't manage to break the barrier. But you think she can? As expected, they're just two stupid bears!

An Feng was cursing in his heart when Yun Chujiu waved at him. "Little Madman, come here! This thing is interesting!"
