

## The Yun Family's Ninth Child is an Imp! Chapter 700

An Feng ran over curiously and reached out to touch it. As expected, it was blocked by an invisible barrier.

"Little Madman, do you think there's a formation here or has this Ten-Thousand-Year-Old Snow Ganoderma become a spirit?" Yun Chujiu asked curiously.

"If this Ten-Thousand-Year-Old Snow Ganoderma has intelligence, it should be able to hide or escape. They wouldn't have the ability to form a spiritual energy barrier. Most likely, after this cluster of Snow Ganoderma was discovered by someone in the past, they probably felt that it wasn't old enough, so they set up a formation to protect it so that it wouldn't be dug up by others," An Feng guessed.

"Hmm, you have a point. Since it's an item with an owner, let's not touch it. It's not worth causing unnecessary trouble. Besides, although this Ten-Thousand-Year-Old Snow Ganoderma is not bad, it's not that delicious. Stewed chicken can't be more delicious than stewed mushrooms!" Yun Chujiu touched her chin and said.

An Feng was speechless.

'Miss Jiu, if you did not add that last sentence, your words would've been very reasonable. However, since you added that sentence, it suddenly became so awkward!'

"Big Bear, Bear Two, I'm sorry. I can't get the Ten-Thousand-Year-Old Snow Ganoderma so I'll give you two pills as compensation! See you next time!" Yun Chujiu threw two super-grade explosive spirit pills to the two bears and beckoned An Feng to continue walking forward.

Yun Chujiu and An Feng did not walk far when they heard a roar from behind. The two Earth-shattering Ice Bears followed them eagerly.

"Why are you following us? Go play wherever you want to play!" Yun Chujiu waved her claws at them.

The two Earth-shattering Ice Bears cried out a few times. Although Yun Chujiu could not understand them, she could guess that the two Earth-shattering Ice Bears wanted medicinal pills.

“Do you want more medicinal pills?”

The two Earth-shattering Ice Bears nodded vigorously. They were lacking in explosive spirit pill, but were in great need of blood coagulation pills. This Chimeric Icefield was different from other places. There were very few medicinal herbs that could stop bleeding. Only Snow Ganoderma and Crystal Snow Lotus could stop bleeding. However, there were very few of them, and most of them had already been taken by humans.

Yun Chujiu rolled her eyes. “Alright then. I’ll hire you as guides. When we leave this icefield, I’ll reward you with two bottles of blood coagulation pills. How about that?”

The two Earth-shattering Ice Bears agreed happily. Yun Chujiu was the kind of person who would take advantage of others, she shamelessly said, “In that case, we can be considered partners! I was too tired from jumping just now. Big Bear, can I rest on your back for a while?”

Big Bear, the Earth-shattering Ice Bear that who was exhausted by Yun Chujiu just moments ago, nodded. Yun Chujiu jumped up and sat on Big Bear’s back.

An Feng looked at Yun Chujiu who was leisurely eating spirit fruits on the bear’s back and felt that everything in front of him was like a dream. Well, he had never dreamed of such a scene. Was it not strange?!

“Little Madman, don’t just stand there. Just sit on Bear Two’s back. Its legs are already fine.” Yun Chujiu shouted at An Feng when she saw him standing there like a wooden stake.

An Feng finally regained his senses and jumped onto the back of the other Ice Bear.

“Little Madman, these bear’s back isn’t bad, right? It’s soft and warm. It’s like a moving furnace. Tell me, why do I have such an affinity with demon beasts?! Sigh, I can’t help it. Who asked me to be so good-looking? All living things have an eye for beauty.”

The two Earth-shattering Ice Bears staggered. ‘Damn! There’s such a shameless human?! You’re good-looking!?! Pfft! If it wasn’t for the hemostatic pill, we wouldn’t have bothered with a skinny little weakling like you!’
