

The Yun Family's Ninth Child is an Imp! Chapter 701

An Feng was dumbfounded when he heard Yun Chujiu's shameless boasting. However, he felt that only Miss Jiu's quick-witted personality would win the trust of the demonic beasts. If it was an ordinary person, they would have killed the two Earth-shattering Ice Bears long ago! Why should they give them medicinal pills to treat their injuries?!

Although demonic beasts were not as complicated as humans, they had the most direct sense of danger. Perhaps they could sense that Miss Jiu did not have any ill intentions toward them, which was why they accepted Miss Jiu so easily.

What Yun Chujiu and An Feng did not know was that not long after they left, a few itinerant cultivators came. They also discovered the Ten-Thousand-Year-Old Snow Ganoderma.

The few of them were extremely excited and kept attacking with their spiritual energy. After several hours, the spiritual energy barrier was finally broken. Just as they were ecstatic and wanted to split up the Ten-Thousand-Year-Old Snow Ganoderma, a wave of poisonous smoke was emitted. The few of them did not expect that there would be an ambush and died on the spot.

A layer of spiritual barrier rose around the Ten-Thousand-Year-Old Snow Ganoderma again, as if nothing had happened.

"Big Bear, do you have any enemies? Bring me to them and see how I can help you get revenge!" Yun Chujiu lay on Big Bear's back for a while and felt that she could not be content with enjoying herself. She still needed to find high-level demonic beasts to train with.

Big Bear immediately ran happily and brought Yun Chujiu to its enemy. 'That's great! My wife's leg was bitten by those Giant Ice Wolves. I can bring them to avenge us!'

Bear Two's eyes were also burning with anger. It followed Big Bear and ran toward the depths of the icy plains.

Yun Chujiu got wind of the energy and her mood also became excited. She started howling at the top of her lungs, "Running with the wind in the direction of freedom. Chasing after the power of lightning and thunder. To carry the vast ocean in my chest, even the smallest sail can sail far away..." [1]

An Feng had never heard such a strange melody before, but he still felt his blood boil, and he could not wait to have a big fight.

The two Earth-shattering Ice Bears ran even faster. Their mood the past two days was filled with ups and downs. The cave they had dug with great difficulty was occupied by the Giant Ice Wolves, and Bear Two got injured.

After the two bears fled in a sorry state, they finally found a clump of Ten-Thousand-Year-Old Snow Ganoderma. They did not expect that they would not be able to get their hands on it even after exhausting themselves for half a day. They had already lost all hope, but they did not expect the situation to turn out this way. The heavens were really fair!

The two Earth-shattering Ice Bears carried Yun Chujiu and An Feng and ran for more than six hours before they finally stopped.

Yun Chujiu asked the two Earth-shattering Ice Bears, "Are you not far from your enemy?"

The two Earth-shattering Ice Bears nodded and pointed at a short cliff in the distance with their huge paws, indicating that it was the enemy's base camp.

Yun Chujiu looked at the sky. The sun was about to set, so she said, "Let's find a place to rest first. We'll get revenge tomorrow, during the day."

The two Earth-shattering Ice Bears naturally had no objections. They carried the two of them to a small slope that was sheltered from the wind.

The next morning, Yun Chujiu stretched her body in a refreshed manner. “Ahhh, last night was the most comfortable sleep I’ve had!”

The corner of An Feng’s eyes twitched. He had asked the two Earth-shattering Ice Bears to block the wind and snow outside and lit a bonfire. Of course, it was very comfortable.

After breakfast, the two Earth-shattering Ice Bears carried Yun Chujiu and An Feng and ran toward the low cliff.
