

The Yun Family's Ninth Child is an Imp! Chapter 702

Just as Yun Chujiu and the others approached the short cliff, a group of Ice Wolves pounced toward them ferociously.

The Ice Wolves were Tier Seven demonic beasts, but they lived in groups. There were twelve of them in this group—no wonder the two bears were at a disadvantage.

The wolf king was much larger than the other Ice Wolves. It stared fiercely at Yun Chujiu and the others, revealing a trace of disdain. 'These two stupid bears actually found two human helpers. Could it be that they actually recognized a human as their master for revenge?'

'Hahaha, that's extremely stupid!'

'You gave up the freedom of being a demonic beast for revenge?! Moreover, you've chosen a powerful person as your master, but you actually chose these two trash at the second level of the Spirit Cultivator realm. You really are two stupid bears!'

Yun Chujiu saw the expression of the wolf king and curled her lips. She waved her claws and said, "All of you watch the battle from behind. I want to fight a pack of wolves alone!"

The two Earth-shattering Ice Bears thought that the little human had gone mad. 'Although you're quite agile, there are twelve wolves. Can you do it?'

An Feng was not very worried, but he was still a little uncertain. The demon beasts on the Chimeric Icefield were much stronger than those in other places. Although Ice Wolves were seventh-grade demon beasts, they were equivalent to Tier Eight demon beasts in the Demon Beast Forest. It was still a little difficult for Miss Jiu to deal with twelve by herself. However, if she was not a match for them, it would not be too late for him and the two Earth-shattering Ice Bears to attack.

The wolf king saw that Yun Chujiu wanted to fight with them alone, and the expression on its face became even more disdainful. No wonder it took those two stupid bears as its spiritual pets. It turned out that it was also brainless.

The wolf king roared twice, and the pack of wolves pounced toward Yun Chujiu.

Yun Chujiu repeatedly waved her hand while dodging the attacks of the pack of wolves, as several bolts of purple lightning charged toward the pack of wolves.

The pack of wolves immediately became chaotic. They had never seen a cultivator who could release purple lightning, and they were instinctively somewhat afraid of the power of lightning.

The two Earth-shattering Ice Bears were also dumbfounded. 'Heavens, this little human actually uses heavenly lightning. It's really too terrifying!'

They felt extremely fortunate in their hearts. 'Fortunately, we did not go against this little human. Otherwise, we would definitely die. Haha, these Giant Ice Wolves are dead for sure! They actually dared to rob our cave. Let's see how you guys are going to show off this time!'

The wolf king was stunned at first, then it joined the battle group. 'This human is so strange. It's best to end the battle as soon as possible.'

"Good timing! I can use you guys as practice! Little Jiu thunder and lightning!" Yun Chujiu dodged nimbly, and lightning struck the Giant Ice Wolf continuously.

An Feng nodded silently. It seemed that Miss Jiu's skills were still effective. At the very least, she was very agile in dodging the ice arrows.

The wolf king saw that it could not attack for a long time, and it gradually became a little impatient. It kept roaring, urging the pack of wolves to get close and bite Yun Chujiu.

Yun Chujiu rolled her eyes. 'If I want to catch a thief, I'll first catch the leader. I'll kill this wolf king first.' Yun Chujiu shot a bolt of lightning at the wolf king.

It quickly jumped to the side and dodged Yun Chujiu's lightning. It shot a few ice arrows at Yun Chujiu.

After Yun Chujiu dodged the ice arrows, she shot a few more bolts of lightning at the wolf king. It dodged extremely pathetically. It howled and urged the other Giant Ice Wolves to attack Yun Chujiu.

In order to avoid the attacks of the other Giant Ice Wolves, Yun Chujiu had no choice but to temporarily stop her attacks on the wolf king. Yun Chujiu thought to herself, 'I can't go on like this. My stamina is limited. If I drag this out for too long, these Giant Ice Wolves will gain the upper hand... I have to think of something.'
