

The Yun Family's Ninth Child is an Imp! Chapter 703

Yun Chujiu had already talked big just now, so she was naturally embarrassed to let An Feng and others help her. However, she had a lot of 'hidden weapons' on her. She found the opportunity and suddenly took out two large sacks and threw them at the wolf pack.

The wolf pack did not know what it was, so they quickly jumped to the side. Boom! The chili powder inside dispersed in all directions.

These Giant Ice Wolves had never seen chili powder before, so the pungent smell immediately made them cry. Yun Chujiu took this opportunity to throw a few lightning bolts at the wolf king.

The wolf king screamed and fell to the ground.

Without the command of the king, these Giant Ice Wolves were like loose sand. Soon, they were all killed by Yun Chujiu.

Yun Chujiu followed the principle of not wasting anything. She put the chili powder and the corpses of these Giant Ice Wolves into her storage bag. Just as she was about to boast a little, she saw two Earth-shattering Ice Bears with blank faces.

They were all dumbfounded!

What was that human throwing out just now? It was too magical. It was so powerful. It must be a newly developed human poison. It was too terrifying!

If Yun Chujiu knew what they were thinking, she would probably burst out laughing. However, what this fellow was thinking was that Chimeric Iceplain was not as mysterious as it was described. Although the demonic beasts were a little more ferocious than the other places, it was just that... Why did the stone tablet outside make it sound so serious?

“Big Bear, Bear Two, carry us forward.”

The two Earth-shattering Ice Bears had mixed feelings. There was gratitude, fear, and a hint of excitement. This little human was so cruel. If he killed all their enemies, would they not be the overlords of this area in the future? Hahaha, their good luck had come!

The deeper they went, the colder the temperature was. Fortunately, Yun Chujiu and An Feng were on the back of the Earth-shattering Ice Bear, so they could endure it. However, the plants on the ground were becoming sparse, and low-level herbivorous demonic beasts were few and far in between.

Yun Chujiu suddenly exclaimed, “Heavens! Little Madman, look ahead! Is that a big lake? How can there be a big lake in this icy plain? And it’s a big lake that doesn’t freeze?”

An Feng also saw the sparkling lake in front of him, and he was very surprised. The temperature there was so low. How was it that the lake did not freeze over?

The two Earth-shattering Ice Bears did not think it was unusual. They were extremely familiar with this place and naturally knew that there was an ice lake there.

The two Earth-shattering Ice Bears walked to an area about thirty feet away from the ice lake and stopped walking. They cried out a few times and their huge claws indicated to Yun Chujiu that they should go around the ice lake and continue moving forward.

Yun Chujiu was stunned. It was understandable to do so. However, why did the two Earth-shattering Ice Bears seem to be afraid of the lake? Could it be that there were powerful demonic beasts in the ice lake?

“Big Bear, are there powerful demon beasts in the ice lake?”

The Earth-shattering Ice Bear nodded and showed a terrified expression. Yun Chujiu was not afraid of big things. She took out a big rock from her storage ring and threw it in the lake.

An Feng was really speechless. 'Miss Jiu's storage ring is truly all-encompassing. It even had a rock. I'm impressed.'

After the stone fell into the lake, there was no reaction. Yun Chujiu blinked her eyes and threw the body of a Giant Ice Wolf into the lake. Then, she saw a huge monster appear in the middle of the lake.
