

The Yun Family's Ninth Child is an Imp! Chapter 706

While the Scarlet Poison Frog was still in a daze, Yun Chujiu successfully attacked it and the lightning struck the Scarlet Poison Frog's left eye. The Scarlet Poison Frog let out a miserable cry and shot a few poisonous arrows at Yun Chujiu.

Although the Scarlet Poison Frog hated Yun Chujiu in its heart, it knew that it was in a disadvantageous position. The extremely low temperature had slowed down its movements. Moreover, its eye was injured, so it had the intention to retreat.

After the Scarlet Poison Frog spat out a few poisonous arrows, it turned around and quickly jumped in the direction of the ice lake.

Yun Chujiu had spent a lot of effort to lure it out, so she naturally would not let it go back just like that. She chased after it and continuously struck the Scarlet Poison Frog with lightning. However, the Scarlet Poison Frog was determined to retreat back into the ice lake, it actually went all out and let Yun Chujiu strike its body with lightning. It was fine as long as it did not hit its eyes.

Yun Chujiu quickly let the strange grass release its scent again. As expected, the Scarlet Poison Frog started to hesitate. On one hand, it had an extremely alluring scent, and on the other hand, it was a threat to its life. It gritted its teeth and actually resisted the scent of the strange grass, continuing its hop in the direction of the ice lake.

Yun Chujiu stomped her feet angrily. If she let it return to the ice lake, it would be the same as letting it go. It would have been a waste of effort!

"Master, let me out! I will use the voice of enchantment to slow it down!" the Flaming Three Tailed Fox King said to Yun Chujiu.

Yun Chujiu was delighted and quickly let it out. The Flaming Three Tailed Fox King jumped to a place where the frog could not attack and roared.

The Scarlet Poison Frog was already distracted by the fragrance of the strange grass. Now that it was attacked by the fox king's charm, it was stunned for a moment. Although the time was short, it was enough for Yun Chujiu to jump in front of it and block its path!

Yun Chujiu shot another lightning bolt at the right eye of the Scarlet Poison Frog. Although the Scarlet Poison Frog tried its best to dodge, it was still injured by the lightning bolt.

Yun Chujiu did not dare to relax. She shot another lightning bolt at its right eye. The Scarlet Poison Frog's vision was damaged and its attack power was greatly reduced. Yun Chujiu gradually gained the upper hand and aimed specifically at its two eyes.

Although the Scarlet Poison Frog's eyes were injured, it desperately shot poison arrows in order to save its life. However, it was already at the end of its tether, and was no longer Yun Chujiu's opponent.

An hour later, after a fierce battle, the Scarlet Poison Frog finally fell to the ground and died!

Yun Chujiu put away the Scarlet Poison Frog's corpse, then sat on the ground and panted heavily. This fierce battle was really too exhausting. If it was not to break through her limits, she would not have provoked such a troublesome demon beast no matter what.

Two Earth-shattering Ice Bears ran over from afar. The two of them were a little embarrassed that they had run away at the last minute, so they squeaked a few times shyly.

Yun Chujiu did not mind. These two Earth-shattering Ice Bears were not her spiritual beasts, so it was their instinct to seek benefits and avoid harm. There was nothing to blame them for.

When the two Earth-shattering Ice Bears saw that Yun Chujiu had no intention of blaming them, they became even more attentive.

An Feng curled his lips. If these two guys wagged their tails again, they would really be no different from puppies!

Yun Chujiu rested for a full hour and finally recovered. She went to the shore of the ice lake again.

Although the frog was killed, Yun Chujiu still did not dare to be careless. The ice lake was very large, and there might be other demon beasts in it. She threw the corpse of a Giant Ice Wolf into the ice lake, and sure enough, a few demon beasts appeared in the ice lake, they fought and bit each other.

However, Yun Chujiu took a look and found that the levels of those demon beasts were not very high. Most of them were at Tier Five and Tier Six, so there was nothing to be afraid of.

Only then did Yun Chujiu approach the lakeside to carefully observe the lake, and very soon, she found something strange.
