

The Yun Family's Ninth Child is an Imp! Chapter 726

Two Earth-shattering Ice Bears jumped into the ice lake. Yun Chujiu and An Feng stood on the back of the bear calmly and leisurely crossed the ice lake.

“Sect leader Liu, there doesn't seem to be the rumored carpet Poison Frog in the Ice Lake. Why don't we go there too?” Shan Yanghu said.

Liu Qian was afraid that Yun Chujiu would leave with the map, so he gritted his teeth and said, “Alright! We'll go through it too!”

Liu Qian and the others swam across the lake with fear in their hearts. They only felt relieved when they reached the shore. It seemed that the frog was just a rumor. There was not even a trace of it!

After a night's rest, they found the Ten-Thousand-Year-Old Snow Ganoderma.

“Oh my God! It's actually a Ten-Thousand-Year-Old Snow Ganoderma! And it's such a big bunch!”

“Oh my God! How many Spirit Stones is this worth?! We're rich!”

Liu Qian and the others immediately revealed their greedy looks. They could not find anything in this treasure hunt. If they could dig up the Snow Ganoderma and sell it, it would be a considerable income!

A few Goshawk Sect disciples could not wait to rush forward. Only then did they realize that the Ten-Thousand-Year-Old Snow Ganoderma was protected by a spirit energy barrier.

Those few people began to attack the spiritual energy barrier with their spiritual energy while Shan Yanghu and San Jiaoyan also attacked the spiritual energy barrier together.

Yun Chujiu did not go forward. She always felt that the Ten-Thousand-Year-Old Snow Ganoderma was a little strange, so she just stood at a distance and watched.

Liu Qian was afraid that Yun Chujiu would take the opportunity to escape, so he also stood at the same place and did not move.

An hour later, Shan Yanghu and the others finally broke through the spiritual energy barrier and fought to dig up the Ten-Thousand-Year-Old Snow Ganoderma. They did not expect that a puff of poisonous smoke would shoot out from the Ten-Thousand-Year-Old Snow Ganoderma. Those few people all fell to the ground and died.

Even Shan Yanghu and San Jiaoyan, who were at the level of Spirit Emperor, did not manage to escape. They died just like that!

Everyone was so scared that they quickly retreated far away. After the black smoke dissipated, everything returned to its original appearance. However, the corpses on the ground had strangely disappeared.

Yun Chujiu's heart stirred. Her Brother Merman had once said that there would be the corpses of demonic beasts and humans falling on the round platform every once in a while. So that was how the corpses came about!

This Ten-Thousand-Year-Old Snow Ganoderma was actually bait. It was used to lure food for Big Brother Merman. The person who designed the array formation there was really awesome!

Sigh! It seemed that it was not an ordinary task to save Big Brother Merman. The other party was obviously very powerful. Not to mention her, even the gigolo was probably not his match.

Liu Qian's entire body was soaked in sweat. If he was not there to monitor the Spirit Stones, he might have gone to help attack the spiritual energy barrier. He would be dead for sure!

The few people around Liu Qian were also extremely fearful. They wanted to preserve their position, so they did not go along with the digging. Otherwise, they would definitely die.

Now, Liu Qian only had eight people left. Two of them were hired spirit sovereign realm elders, and the remaining six people were all from the Goshawk Sect.

Everyone set off once again. The atmosphere became much more solemn, and they became even more cautious.

That night, Yun Chujiu sneakily released the two Earth-shattering Ice Bears. “Big Bear, Bear Two, I’m leaving this Chimeric Icefield. This is the blood coagulation pill that I promised you. We’ll meet again in the future! Be careful, and don’t be discovered by them!”

Big Bear and Bear Two rubbed against Yun Chujiu before disappearing into the night. Their fur and icefield fused into one, and together with the deliberate concealment of their auras, Liu Qian and the others did not notice their departure at all.
