

The Yun Family's Ninth Child is an Imp! Chapter 745

Yun Chujiu saw Xue Wuji's desolate look and could not bear it. She took out another Rosy Fog fruit and gave it to Xue Wuji. "Brother Wuji, you can keep it for later."

Di Beiming glanced at Xue Wuji and held back from snatching the fruit, 'Does he want to snatch Little Jiu from me? Dream on!'

Xue Wuji's ability to move on was very strong. In a short while, he recovered his composure. He continued to explain the situation in the Endless Wilderness to Yun Chujiu.

"Little Sister Jiu, as the name suggests, the Endless Wilderness is quite big. Moreover, the wilderness is also very dangerous. The lowliest demonic beasts there are at least rank eight. They are even some as strong as rank 12 there.

Other than these dangerous demon beasts, it is also covered with swamps. Add to that the restriction on flying, once you are trapped in the swamps, it will be very troublesome. However, Little Sister Jiu, don't worry. With Big Brother here, I will guarantee that you will arrive safely at the Ancient Sword Tomb."

"Big Brother Wu Ji, unless it is necessary, you don't have to fight. This place is so dangerous. It is just the right time for me to train and gain some actual combat experience." Yun Chujiu could not break through for a long time. Now, she could not wait to meet some high-level demon beasts and challenge herself.

Xue Wuji smiled brightly. "Little Sister Jiu, you work too hard. I'm really proud of you!"

Yun Chujiu giggled. "Brother Wuji, you really know how to sweet talk!"

...

Di Beiming clenched and loosened the fist in his sleeve. He clenched it again, wishing that he could slap Xue Wuji away, he clenched his teeth and squeezed between Yun Chujiu and Xue Wuji. "Little Jiu, don't talk so much. Pay attention. You're here to gain experience, not to listen to someone spouting nonsense."

Just as Xue Wuji was about to retort, he saw a commotion among the people in front of him.

There were less than a hundred people from the Spirit Flower sect. A third of them were at the level of spirit emperor, and the rest were at the level of spirit cultivator.

What caused the commotion was the group of 30 to 40 level 10 Venomous Giant Man-Faced Spiders in their way.

A Level 10 demon beast was equivalent to a level 3 spirit emperor. Although the people from the Spirit Flower sect had the advantage in terms of strength, the Venomous Giant Man-Faced Spiders could shoot out poisonous threads. Not only could those poisonous threads trap people, but if they stuck to the exposed skin, the victim would be poisoned to death.

Furry was almost going crazy with joy. "Master! I want poisonous silk! I want poisonous silk! I want poisonous silk!"

"If you want the poisonous silk, shut up!" Yun Chujiu felt that her spiritual sense was about to be overloaded by that ball of yarn, and she couldn't bear it anymore.

Seeing that Yun Chujiu was angry, Furry finally stopped and whispered, "Master, the silk produced by that Venomous Giant Man-Faced Spider is a good thing. You must get as much as you can! It's now or never!"

Yun Chujiu agreed, but she was a little uncertain. The giant spider was equivalent to a third-level spirit emperor, and it could use poisonous silk. It would be good enough if she could kill one, but if she really

couldn't, she would buy a few corpses of the giant spider from Elder Xiao and the others when they returned home.

"Prince Charming, brother Wuji, let's go to the front and take a look." Yun Chujiu said to Di Beiming and Xue Wuji.

Di Beiming saw that Yun Chujiu placed him in front of Xue Wuji, and the anger in his heart dissipated a little. I will always be the first in Black Thing's heart. No one can replace my position in Black Thing's heart!
