

The Yun Family's Ninth Child is an Imp! Chapter 750

Before Yun Chujiu could finish her sentence, Di Beiming had already jumped over. Before he arrived, an Ice Dragon had already pounced on the Swamp Mud Dragon.

Yun Chujiu was dumbfounded!

This was the first time she saw Di Beiming using his spirit energy to attack. In the past, he would just wave his sleeves and deal with it. She had never seen him using his spirit energy to attack. Turns out the gigolo had an Ice Root Spirit!

However, the Ice Root Spirit should be an ice arrow, right? How could the gigolo produce such an awesome Ice Dragon instead? Oh boy, when she had time, she must ask the gigolo how brilliant it would be when she used her thunder spirit power to transform into a phoenix!

When the Swamp Mud Dragon saw the Ice Dragon pouncing on it, it felt fear in its heart. It wanted to shrink back into the swamp, but it did not expect the Ice Dragon to turn around and bite its eye!

Where would the Swamp Mud Dragon have ever seen a spiritual attack that could turn around? It was stunned for a moment. How could Yun Chujiu let go of such a good opportunity? A few bolts of lightning struck toward the swamp Swamp Mud Dragon's eyes.

In order to avoid the Ice Dragon, the Swamp Mud Dragon had no choice but to take a lightning strike from Yun Chujiu. It cried out in pain and dived into the swamp.

Di Beiming transformed into an Ice Dragon again. The Ice Dragon actually dived into the swamp. The swamp churned and a moment later, the corpse of the Swamp Mud Dragon floated up. The Ice Dragon also turned into a wisp of spiritual energy and disappeared.

Di Beiming came to Yun Chujiu's side at that time. "Are you alright?"

Yun Chujiu's eyes sparkled. "Prince Charming, you were so cool just now! So cool! It's simply incomparable!"

Di Beiming smiled faintly. "We'll talk later. We'll talk after we get out of this swamp."

Xue Wuji pursed his lips behind him. 'HMPH, what's so great about that? Isn't he just acting cool? I know how to do that too. If there's a chance, I'll let Little Sister Jiu see my spiritual power.

Two hours later, the people of the Spirit Radiance Sect finally passed through the swamp. After counting the number of people, there were actually 12 disciples who lost their lives in the swamp.

There was no time for them to be sentimental, so they hurriedly continued their journey to avoid wasting the precious time searching for the ancient sword tomb.

Yun Chujiu simply took a handkerchief to wipe the mud on her face, and then impatiently asked Di Beiming, "Prince Charming, why is your spiritual power an Ice Dragon? Quickly teach me, I want to make a phoenix as well. We can be a pair!"

Xue Wuji came over from the side, "Little Sister Jiu, don't let some people deceive you! Actually, this is just a spiritual power illusion. When you reach the Spirit Emperor realm, you can do it too! It's just that the object that you just transformed into is relatively simple."

"Brother Wuji, then what can you transform into?" Yun Chujiu asked curiously.

"Little Sister Jiu, that dragon thing is just so-so. I can transform into a huge skull, it's very awesome!" Xue Wuji said proudly.

After Xue Wuji said that, he raised his hand and attacked a nearby bush with a huge skull. The huge skull was like a hurricane, and the bush was instantly turned into powder. “How was that Little Sister Jiu? My skull is awesome, right?!”

Yun Chujiu nodded. “Although it’s a little inferior to Prince Charming’s Ice Dragon, it’s still quite powerful. Big Brother Wuji, do you have the Wind Root Spirit?”

Hearing Yun Chujiu’s words, the corners of Di Beiming’s mouth curled up. ‘Xue Wuji, you still want to compete with me? You’re simply asking for humiliation!’

Xue Wuji said unwillingly, “That’s right, I have the Wind Root Spirit. Little Sister Jiu, you’ll find that my skull is much more powerful than the Ice Dragon in the future.”

Just as Yun Chujiu was about to speak, she heard a cheer from the front. “We’ve arrived at the ancient sword tomb!”
