

## The Yun Family's Ninth Child is an Imp! Chapter 752

"There's no good way. We can only rely on luck! Can't you see that some people are already searching? It's just that some of them think that the entrance has already been searched by their predecessors, so they continue moving forward."

Feng Ming said with some excitement. Entering the area was like entering a treasure house. However, how much they could find and how good the quality was would depend on their own luck.

Yun Chujiu's small face also revealed an eager expression. Interesting! She loved this kind of treasure hunting the most. Not only did she not have to spend money, but she could also find treasure. Was that not great?!

She squatted on the ground, took out the rolling pin and made it a hundred feet long. Then, she began to spin it on the ground. A large area was rummaged through just like that. The remains that were touched by the rolling pin were all turned into ashes. If there was a weapon with a weapon spirit, then there would naturally be some left.

Everyone was absolutely speechless.

'F\*ck! This is how you're gonna play?!'

'Yun Chujiu, you are too shameless!'

However, Yun Chujiu's actions reminded them of that fact, so everyone took out longer items and began to rummage through the remains like Yun Chujiu.

Although it sounded quite exciting, it was not as easy as everyone thought. After half a day, not one person found a spiritual weapon.

Yun Chujiu had also fallen from her initial excitement to indifference. She shortened the rolling stick to about four feet long and used the rolling stick to rummage through the area casually.

Di Beiming and Xue Wuji also followed Yun Chujiu, as if they were not interested in these spiritual weapons.

Therefore, Yun Chujiu, the two boys, An Feng, and Shadow agent Huahua were the only five people who stood nonchalantly. Everyone else wanted to lie on the ground and search, but these five people seemed to be taking a stroll in their own backyard.

Finally, someone shouted excitedly, "High-grade spirit weapon! I found a high-grade spirit weapon! Hahaha!"

Everyone's gaze turned to the person who shouted. They saw that the person was holding a sword in his hand. The sword was shining brightly, and it was obvious that it was a high-grade treasure.

If they were outside, the person who obtained the treasure would definitely follow the principle of not revealing their wealth and secretly hide the treasure. However, in this ancient sword tomb, if the person who obtained the spirit weapon did not shout it out, he would feel a kind of melancholy in his heart that he could not get rid of. Perhaps this was the resentment of the original owner of the spiritual weapon, so every time someone obtained a spiritual weapon, he or she could not help but loudly shout it out.

Some eyes revealed a look of greed, but the person who shouted out was from the Skyblade Sect. There were quite a number of people from the Skyblade Sect, so after thinking about it, those people gave up the idea of killing someone just to snatch the treasure.

In the next few days, there would occasionally be people who found high-grade spiritual weapons. After some itinerant cultivators found the spiritual weapons, although they tried their best to hide it, they would still shout it out in the end. This would then attract the covetous eyes of those with ulterior motives and inevitably lead to a fight.

At that moment, Yun Chujiu deeply understood the meaning of leaning against a big tree to enjoy the shade. Although those people from the four great sects were envious, they did not dare to fight for the treasures. After those rogue cultivators and people from small factions obtained the treasures, it would cause a chaotic battle.

Of course, Yun Chujiu felt that even if she was not from the Spirit Radiance Sect, with these four malefactors by her side, no one would dare to snatch her things! However, why could she not find a single spirit weapon?! Damn it!

Yun Chujiu personally saw Su Yanran pick up at least ten high-grade spirit weapons as if she had opened a cheat.

Could it be that this Su Yanran was the Heavens's illegitimate daughter?! She was actually so lucky?! Was that not just infuriating?!
