

The Yun Family's Ninth Child is an Imp! Chapter 780

Yun Chujiu slept soundly. After waking up, she stretched and put away the blanket and rope. Then, she started wandering aimlessly.

It was impossible to break the enchantment. Even the remnant souls could not attack it. If they attacked, they would suffer a backlash. It was impossible for Yun Chujiu to break the enchantment by herself.

Yun Chujiu felt that there were only two ways around it at the moment. One was to cultivate hard like the last time in the deep pit of the Demonic Beast Forest. When she broke through to the next level, she would insult the heavens and let it split the array formation. However, she could not guarantee that she would not overdo it, resulting in the heavens killing her.

The second method was to find the core of the array. After destroying the core, she could naturally get out. This method was more stable, but it was less maneuverable. The ancient sword tomb was so big, who knew where the damn core was?!

Yun Chujiu decided to do both. She would look for the core of the formation while cultivating.

Thus, Yun Chujiu lived a regular life in the ancient sword tomb.

She ate, cultivated, looked for the core of the formation, and slept. This cycle repeated over and over again. In the blink of an eye, a month had passed.

There was no sign of the core of the formation at all. She was worried that she would fall into a crack at any time during cultivation, so she could not break through. Yun Chujiu felt that this could not go on. Although she had something that she could not finish, the crack in the ground was getting more and more serious. If this continued, she would have no place to stand on sooner or later.

Yun Chujiu decided to try scolding the heavens. What if that old bastard could not hold it in and struck her? It was better than waiting for death.

“Hey! Heavens, you old fart. Didn’t you want to kill me? If you have the ability, come and strike me! If you don’t strike me, you are a coward.”

“Heavens, are you already afraid of me? You don’t dare to go against me?”

“Could it be that you’ve done something harmful, so you’re feeling guilty?”

...

Yun Chujiu cursed for a long time, but there was no reaction at all. Yun Chujiu decided to put in more effort!

“Hey, Heavens, I’ve helped you write a lot of poems. Listen up, one, two, three, four, five. Heavens is a scoundrel, five, six, seven, eight, nine. Heavens is an old bastard.”

“A garden full of spring can’t hold it. Heavens came out of the wall.”

“The sun rises in the east and the rain falls in the west. Heavens is the most shameless.”

...

Yun Chujiu cursed until her mouth was dry, but there was still no reaction. Yun Chujiu sat on the ground dejectedly. It seemed that this old b*stard had learned its lesson and did not take the bait at all.

Yun Chujiu tried to curse at the heavenly lighting for a while, but there was still no reaction. It was like a fist hitting cotton, making one feel so depressed that they wanted to vomit blood.

The crack in the ground became more and more serious, and there were a few times when Yun Chujiu almost fell in. Fortunately, she made preparations every time she took a break, or else she would have been buried in the sea of fire.

Yun Chujiu was so worried that she could not take it anymore. She was so upset that she decided to vent her anger, and how she did it was by yelling and eating.

She set up a bonfire, took out a snow rabbit from her storage ring, and took out a large kitchen knife to butcher the snow rabbit. Unexpectedly, just as she took out the large kitchen knife, the large kitchen knife broke out of her control and jumped forward...

Yun Chujiu was stunned. Damn, the kitchen knife had developed a spirit?!

The large kitchen knife jumped forward for a while. When it saw that Yun Chujiu did not follow, it stopped.

Yun Chujiu finally came to her senses and quickly chased after the large kitchen knife. When the large kitchen knife saw that Yun Chujiu was chasing after it, it continued to jump forward quickly.

“DAMN! Large kitchen knife, stop right there! Did you see that I was going to die, so you want to stand on your own?! You ungrateful knife!” Yun Chujiu shouted as she chased after it..
