

## The Yun Family's Ninth Child is an Imp! Chapter 788

Yun Chujiu emerged from the water and swam about two miles away from the huge sea beast. She waved her hands with a smile and said, "Hello, Lord Sea Beast!"

Yun Chujiu thought to herself that no matter if it flew in the sky or swam in the sea, nothing was immune to a little flattery. She would try to butter up the beast first.

The huge sea beast squinted its huge eyes and glanced at Yun Chujiu casually. Its gaze was like a person looking at an ant.

When Yun Chujiu saw that the sea beast ignored her, not only was she not unhappy, she was even ecstatic. The sea beast did not like her. Since that was the case, it definitely would not eat her so. It meant she was safe.

Yun Chujiu used her courage to swim to the other side of the sea beast and finally saw its full appearance. It was a level 13 Giant Tsunami Turtle.

Yun Chujiu counted with her fingers. This Tsunami Turtle was at least at the seventh level of the spiritual emperor realm. The one in front of her was probably at the eighth level of the spiritual emperor realm. Oh my god, it was lucky that it was not interested in her, otherwise, she would not have any way to survive!

Seeing the Tsunami Turtle close its eyes again, Yun Chujiu did not dare to tease it anymore. She swam in another direction, hoping to find another way out.

Unfortunately, she swam so fast that her hands and feet were about to cramp. She could see the huge body of the Tsunami Turtle.

“Damn it! If I knew this would happen, I would have stayed in the ancient sword tomb. No matter what, we were still on land in there! After soaking in the water all day long, it won’t take long for me to turn into a steamed bun!”

Yun Chujiu asked Furry to get some thick wood from the Great Void Mystic Realm. She tied a few pieces of wood together and climbed up. Finally, they were temporarily out of the water.

The Tsunami Turtle occasionally opened its eyes and looked at Yun Chujiu with disdain. This little weakling was quite a troublemaker. Unfortunately, no matter how much she struggled, she would not get out. If she could, would this turtle still be trapped here too?!

Yun Chujiu finally a place to stand and got her thoughts were back in order. She thought of a crucial question.

If this place was a formation, then what did this sea turtle usually eat? There was nothing at the bottom of the sea. Could it be that it just stayed hungry?

In the blink of an eye, five days had passed. Yun Chujiu was surprised to find that the sea turtle did not move at all, let alone eat. It only occasionally glanced at her lazily.

After a few days of hesitation, she decided to go and have some fun.

“Hi! Master Turtle, since we are now considered neighbors. Let’s have a chat!” Yun Chujiu paddled the simple wooden raft to a place not far from the sea turtle and waved her hands.

The sea turtle narrowed its eyes and glanced at Yun Chujiu lazily, looking as if it did not care.

“Master Godly Turtle, this is the first time I’ve seen such a huge sea beast like you. It’s awe-inspiring!”

“Master Godly Turtle, you are the kindest and noblest demon beast I’ve ever seen. Unlike some demon beasts who disregard their own status and always bully the weak, a demon beast like you is a role model in the Demon Beast World.”

“Master Godly Turtle, I’m impressed by your willpower. For ten days in a row, you didn’t move at all. Even a godly beast couldn’t achieve such willpower. You’re amazing!”

...

The eyes of the Tsunami Turtle were still half-closed at the beginning. As it listened, its eyes gradually grew wide open. It was very pleased with Yun Chujiu’s words.
