

## The Yun Family's Ninth Child is an Imp! Chapter 796

Yun Chujiu could command these spirit tools and immortal tools to carry out a single attack, but it was not feasible to deal with demonic beasts and humans. Her spiritual sense could not support so many spirit tools to carry out a coordinated attack.

However, the Giant Tsunami Turtle did not know that in its heart, Yun Chujiu's status was already equal to that of the devil. It made up its mind that in the future, it must be more polite to the little girl. Otherwise, if the little girl commanded these spirit tools to attack it, it would be turned into swiss cheese!

Yun Chujiu did not know about the Giant Tsunami Turtle's change in perception of her. At that moment, she concentrated on refining her spiritual power and commanded the spirit tools to attack the barrier.

Although she could not see the barrier, according to Yun Chujiu's analysis of the speed of the spiritual power consumption, the barrier here was much weaker than the barrier in the ancient sword tomb. Soon, a crack would be formed.

Yun Chujiu said to the Giant Tsunami Turtle, "Master Godly Turtle, I estimate that in another hour, a crack will be formed in the enchantment. However, your body is huge, so I'm afraid you won't be able to squeeze out through it! How about I put you into the spiritual beast bag for a while and let you out after we break through the barrier? What do you think?"

Yun Chujiu thought for a while and added, "Don't worry, you can enter my Spiritual Beast Bag can without recognizing me as your owner."

The Giant Tsunami Turtle hurriedly nodded. Right now, it was very afraid of Yun Chujiu, so it did not dare disagree. Besides, what the little girl said made sense. Looking at the area where the spirit tools and immortal tools were attacking, it would not be able to fit through the gap. What the little girl said made a lot of sense.

Seeing the Giant Tsunami Turtle nod in agreement, Yun Chujiu continued, "Later, when I say it's time to take you in, don't resist. We must make the most of our time."

The Giant Tsunami Turtle nodded repeatedly and was extremely obedient.

Although Yun Chujiu felt it was a little strange, she did not have the mood to think about that at that moment. She focused all her attention on continuing to attack the barrier.

An hour later, a sea breeze blew in. Yun Chujiu was delighted. "It's time! Get in!"

Almost instantly, she put the spirit tools and the Giant Tsunami Turtle into her storage ring and the Spirit Beast Bag respectively. Then, she rushed out toward the place where the wind blew in!

Yun Chujiu almost cried with joy when she saw the occasional school of fish jumping up from the sea. They had got through! They had really escaped this time!

Yun Chujiu turned her head to look at the area that was surrounded by the array just now, and as expected, it disappeared again. Behind it was the endless sea, and there were occasionally schools of fish jumping out of the water.

Yun Chujiu thought about it, but she did not immediately release the Giant Tsunami Turtle. It did not eat her inside the array, but it did not mean that it would not eat her now that they had escaped the array. She was not its enemy but the sea was its home so it would have an advantage if it tried to attack her. She would release it when she was about to go ashore.

The Giant Tsunami Turtle did not know what was happening outside and was unable to communicate with Yun Chujiu. Only then did it realize that it had been tricked by the little girl. Did I just make myself an easy target?!

However, it was too late to regret now. It could only leave things to fate.

Yun Chujiu summoned the chopping board and wanted to ride on it to leave the area. Unexpectedly, the chopping board still could not fly.

Yun Chujiu frowned and took out the sound transmission talisman to test it, but it did not work either! What the hell was going on?! Could it be that this place was still inside the array formation?!

Yun Chujiu had no choice but to take out the simple wooden raft. After getting on it, she asked the Little Black Bird, "Xiao Hei, ask the old b\*stard if flying spirit tools and talismans also don't work in the area of the sea where it originally lived."

"Master, the old b\*stard nodded!" The Little Black Bird said to Yun Chujiu through his divine sense.
