

The Yun Family's Ninth Child is an Imp! Chapter 803

The giant turtle felt that it could not wrap its brain around the situation. 'Oh my God, what kind of monster of a human have I met?!

'It's already scary enough that she can command so many spiritual and immortal items at the same time. Why is her lightning so abnormal even when it's in the water?! How can beasts continue to live like this?! It's really a blow to the beast-kind!'

Yun Chujiu was also stunned for a while, and then started laughing arrogantly! Hahaha! It was only a matter of time before gold would shine! She did not expect her lightning to be so awesome in the water. It was even more powerful than on land. This was pretty much a torpedo! The kind of torpedo that had its own navigation system!

When the Giant Tsunami Turtle saw Yun Chujiu laugh, it thought of a very important question. Only then did it realize and wonder why this little girl could laugh under water? If she had a waterproof pearl in her mouth, it was impossible for her to even laugh. Moreover, they had been underwater for a long time. It had been more than 15 minutes. Could it be that she had a Water Repellent Pearl?

Damn, what was this girl's background?! Not only did she have so many immortal and spiritual artifacts, but she also had the long-lost Water Repellent Pearl?!

At that time, the sea turtle was extremely glad that it did not choose to be Yun Chujiu's enemy. This little girl's background was definitely not simple.. Perhaps she still had some powerful magic treasures that she had not used. Perhaps she even had a divine artifact!

The sea creatures that were eating the melon were stunned for a moment before they scattered and ran in all directions. Damn, that sea turtle was already enough to scare the beasts. Now, there was even a human little pervert. If they did not run immediately, when would they do so?!

The sea turtle had almost finished eating. It was a little shocked by Yun Chujiu, so it did not bother about the low-level sea creatures. It floated up to the surface of the water and gestured for Yun Chujiu to sit on its back.

Yun Chujiu only had one word in her mind: Awesome!

She originally thought that the sea was her weakness. She did not expect that the lightning would be like a fish in water when it was actually underwater. It actually had intelligence. What a pleasant surprise!

She laughed as she thought about it. Hehe, those with Fire Root Spirit would be unlucky if they were in the water. The fireball would be extinguished before it's even released. Her Heavenly Thunder Root Spirit was still the best.

In the next few days, Yun Chujiu's life was very comfortable. Other than the giant sea turtle diving into the sea occasionally to look for food, the rest of the time, Yun Chujiu was more or less the same as she was on land. If she was not cultivating, she was reading a storybook and was very relaxed.

The giant sea turtle was almost akin to being king of the sea. Those sea creatures could not avoid it in time, so they naturally would not go looking for trouble. Therefore, the life of the man and the turtle was not bad.

The Endless Sea was too big. The Giant Tsunami Turtle carried Yun Chujiu for six days, but it was still a vast expanse, with no end in sight.

On that day, Yun Chujiu was basking happily in the sun when the Giant Tsunami Turtle suddenly let out a roar.

Yun Chujiu was shocked and quickly sat up.

Two huge splashes appeared in the distance, and the two huge creatures revealed themselves.

Yun Chujiu's heart skipped a beat. They were actually two Tier 13 Bloodthirsty Sword Sharks. Bloodthirsty Sword Sharks were brutal by nature, and they liked to hunt high-level sea creatures the most. They probably had their eyes on Big Bastard, and their speed was much faster than Big Bastard's so it could only accept the challenge.

However, even if Big Bastard could defeat one shark in a one-on-one fight, what about the other one? Should Yun Chujiu deal with it? Do not joke around!! Although her little lightning was a little strange, she could still deal with low-to mid-level sea creatures. However, would dealing with a Tier 13 Bloodthirsty Sword Shark not be courting death?!
