

The Yun Family's Ninth Child is an Imp! Chapter 806

The Bloodthirsty Sword Shark did not expect Yun Chujiu to use such a wicked method. Yun Chujiu's silhouette could not be seen in the dark water.

Yun Chujiu was not idle at this time. She waved several purple lightning bolts to restrain the Bloodthirsty Sword Shark while desperately searching for something that could be stained in her storage ring.

She only had this one bottle of ink. This was because Di Beiming often asked her to write a self-reflection letter and a guarantee letter. Usually, she would use a charcoal pen.

If she had known this would happen, she would definitely have prepared a few vats of ink!

Yun Chujiu was extremely anxious. Fortunately, Furry took out a few bottles and jars from the Great Void Mystic Realm. "Master, these are the ones that I prepared to dye, glue, and knit sweaters. You can use them first. I'll continue to produce black liquid for you now."

Yun Chujiu was overjoyed. She quickly sprinkled a few more bottles of dye before the black ink dissipated. The seawater instantly turned into a sea of colorful colors.

The Bloodthirsty Sword Shark was furious. Humans were cunning and always liked to play sinister tricks. It was really detestable!

It could only spray the water arrows randomly. It did not dare to get too close to the dyeing areas, afraid that Yun Chujiu's little lightning would sneak up on it.

Yun Chujiu relied on Furry's dye to delay for another hour. However, Furry's movements were not that fast, so it was impossible to produce so much dye. Yun Chujiu was once again exposed to the Bloodthirsty Sword Shark's sight.

The Bloodthirsty Sword Shark smugly shot hundreds of water arrows at Yun Chujiu. 'You little weakling, let's see what else you can do this time!'

Yun Chujiu had no other choice but to use offense as a defense. She summoned five immortal swords and commanded them to attack the Bloodthirsty Sword Shark.

Although the three immortal swords were reluctant, they could not resist. They could only brace themselves and thrust at the Bloodthirsty Sword Shark.

Seeing that Yun Chujiu was commanding five flying swords at the same time, the Bloodthirsty Sword Shark could not help but be a little surprised. It knew that the five swords weren't low-grade, so it did not dare to just ignore them. While dodging, it shot out water arrows, hoping to block them.

Attacking sea creatures was different from attacking barriers. Yun Chujiu was already at the limit of her soul's consciousness when commanding five flying swords at the same time. Not only did these five flying swords have to attack the Bloodthirsty Sword Shark, but they also had to dodge the water arrows shot out by the Bloodthirsty Sword Shark, thus, it was very taxing on her soul's consciousness.

Yun Chujiu relied on the five immortal swords to fight with the Bloodthirsty Sword Shark for another fifteen minutes. Gradually, her soul's consciousness could not resist it, so she had no choice but to take back the five immortal swords.

At that time, Furry took out another bottle of dye. Yun Chujiu hurriedly sprinkled it in the water, and only then was she able to catch her breath for a moment.

Yun Chujiu's brain was operating at a rapid speed. It was likely that the outcome between Big Bastard and the other Bloodthirsty Sword Shark would not be decided within a short period of time. Right now, whether it was spiritual power or spiritual sense, she was close to being overdrawn. If she did not think of another way, she was afraid that she would be finished.

Before Yun Chujiu could think of any other way, the Bloodthirsty Sword Shark had actually quietly rushed to the nearby area. With a fierce breath, Yun Chujiu's body could not help but be sucked into the Bloodthirsty Sword Shark's mouth.

The turtle and the other Bloodthirsty Sword Shark were also fighting nearby. When it suddenly saw that Yun Chujiu was swallowed by the Bloodthirsty Sword Shark, it was so scared that its heart trembled. It was finished! The little girl was eaten!

F*ck!! How could this be?! Was this little girl not very awesome?! How could she be swallowed?! Even if she died, it would still be finished! It was not a match for these two Bloodthirsty Sword Sharks.

'Little Girl, you tricked me so hard! If I knew that you were so useless, I would've thought of a way to escape. Why would I fight head-on with them?!
