

The Yun Family's Ninth Child is an Imp! Chapter 819

"A silver mask? That must be of a higher rank than the black-masked man I met! It seems that the higher-ups value Big Brother much more than me! It makes me envious! The emissary would give me a bottle of pills every time. I wonder what other good things did he give to you other than pills?" Yun Chujiu asked with an envious look.

Ever since the old man had joined that organization, no one had been told about this secret. It felt like if a person had made a fortune but had no one to show it off to. It would inevitably be uncomfortable to be the only one who knew of the secret for such a long time.

Therefore, after he met Yun Chujiu, although he was still wary of her, he was all too eager to share the joy in his heart. He then said with a slightly proud tone, "One bottle? The envoy only gave you one bottle of pills? The envoy gave Big Brother at least three bottles of pills each time. To be honest, the reason why the Yongxing Trading Company's guards have such high spiritual power is that I mixed those pills with other types before giving it to them to consume."

Yun Chujiu's eyes revealed an envious expression. "Three bottles? Looks like I'll have to thank Big Brother for taking care of me in the future. Your future in the organization seems safe. The higher-ups only told me to look for the map and didn't arrange any other tasks for me. Since they seem to favor you, could it be that they also arranged other tasks for you?"

The old man said arrogantly, "It's not really a task. But just to recruit talents."

"Recruit talents! Oh my god! Big Brother, does the organization want to establish a branch and let you be the leader?" Yun Chujiu stood up from her chair in surprise.

The old man could not hide the pride on his face, "The last time the emissary came, he showed the intention to establish one. Our Endless Sea is far away from the central continent. He said that it was time to raise a force that can stand shoulder to shoulder with the four great sects!"

Yun Chujiu repeatedly cupped her fists. "Congratulations! Congratulations! In that case, won't I have to address you as Lord Sect Leader in the future?!"

"Hahaha! It's still too early for Little Brother to say this. I wonder what plans Little Brother has in the future?" When the old man thought of the plans for the future of the Yongxing Trading Company, his guard was almost completely lowered. In his opinion, how capable could this fifth-level spirit cultivator kid be? Even if he harbored evil intentions, he could not do much against him.

"Me? Sigh, to be honest, after I handed in the map last time, the emissary has not contacted me. I tried to send him a voice transmission talisman, but he ignored me. Otherwise, I wouldn't have come to this Endless Sea to relax." Yun Chujiu said with disappointment.

"Little Brother, if that's the case, let me keep the jade token and map first. You can stay with me in the future! If Big Brother gets rich, I will treat you well."

Yun Chujiu handed the map and the jade token that she had scribbled on to the old man from her storage ring and said, "Brother, this map doesn't look like the Eye of the Earth. I'm afraid you'll have to continue searching."

The old man took the map and looked at it. He didn't see any flaws. After keeping the map and the jade token, he said, "We're all just following orders. We will just hand it over to the emissary when the time comes."

"Brother, to tell you the truth, ever since I ended up getting involved in this, I have been in a state of excitement all day. How do you think those higher-ups got so powerful? After eating the pill, one's spiritual power suddenly increases. And those maps, how did they find out about them? They are too powerful!"

"The emissary once mentioned that the master is an incredible figure. Even the mighty figures of the Tianyuan Continent are not a match for our master, much less so for those of the Azure Mystic Continent."
