

## The Yun Family's Ninth Child is an Imp! Chapter 829

After the six flying spirit tools surrounded Yun Chujiu's flying spirit tools in the middle, they began to attack with their spirit energy through the porthole. Although the flying spirit tools had a certain degree of defensive ability, they would not be able to last for long.

Yun Chujiu saw the reflected shadows from the porthole. Those people were wearing silver masks just like Ren Lizhi. She was shocked. They were people from the Godly Devil Hall—they were very well-informed.

"Yu Hai, pass me the topographic map of this area!"

After Yun Chujiu took the topographic map, she found that there was a big lake below. She rolled her eyes—she had an idea.

"Fly down. We'll jump into the lake!" Yun Chujiu said resolutely. "Our combat strength in the water is much stronger than on land. Only in this way can we fight for a slim chance of survival."

Yun Chujiu's flying spirit tool rapidly descended. Yun Chujiu looked at Ren Lizhi, who had been in a coma the whole time. She had planned to bring him back to continue the interrogation, but now it seemed that she could only kill him.

Yun Chujiu raised her sword and swung it down. Ren Lizhi died in his sleep!

After the flying spirit tool descended to a few feet above the lake, everyone jumped into the lake one after another. The flying spirit tool was also put away by Yun Chujiu.

The people in the six flying spirit tools were flustered and exasperated as they used the porthole to attack Yun Chujiu and the others with their spirit power. Unfortunately, Yun Chujiu and the others had dived into the water, so their attacks basically had no effect.

“Lord Fan Zhen, they’ve jumped into the lake, what should we do?”

In one of the flying spirit tools, there were seven or eight men wearing silver masks, and in the middle of them stood a man wearing a golden mask. He sneered, “This Shi Ling is smart, but he can’t escape from me. Let’s jump down too!”

“Sir, we don’t know how to swim!”

“No problem! We can just watch from the boat,” Goldface sneered.

Those silver-masked men looked at each other. ‘Watch the show? Watch what show? Those people seemed to be good at swimming. We, the landlubbers, can’t do anything to them.’

Fan Zhen, who was Goldface, led those silver-masked men and jumped into the water. He took out a big boat from his storage ring, and everyone got on the boat.

Fan Zhen waved his hand, and a huge monster appeared in the lake!

Those silver-masked men cried out in surprise. Oh God, it was a Tier 13 Illusionary Electric Eel! Those people were dead for sure! Not to mention that the Illusionary Electric Eel was of a high level, more importantly, it could emit electric currents. It was simply an invincible existence in the water.

Fan Zhen said to the Illusionary Electric Eel, “Go! Electrocute those people to death, but leave the bodies for me. Once I find the thing I need, they’re all yours.”

The Illusionary Electric Eel nodded its huge head and dived into the water.

The silver-masked men flattered, “Sir, is this Illusionary Electric Eel your spiritual pet?”

Fan Zhen nodded arrogantly, “This is just one of the spiritual pets given to me by the Lord. As long as you work hard for the Lord, you will have such spiritual pets in the future.”

The silver-masked men were ecstatic, “Sir, really? That’s great! The Illusionary Electric Eel is a Tier 13 demon beast, equivalent to the seventh level of the Spirit Emperor realm. I think this one of yours might even be equivalent to the eighth level of the Spirit Emperor realm! Those people will be dead in less than 15 minutes!”

“Exactly! They think that they can escape by jumping into the water. They’re too naive! The Illusionary Electric Eel is the overlord of the water. It only needs a few electric currents to electrocute them to death.”

“No wonder sir said that we only need to watch the show from the boat. With the Illusionary Electric Eel, not to mention a dozen of them, even a hundred people would not be a match.”
