

The Yun Family's Ninth Child is an Imp! Chapter 830

"My Lord, you said that the map really fell into the hands of that Shi Ling? My lord, how did you know that something had happened to Ren Lizhi?"

"I happened to pass by Wanghai City and heard everyone discussing that something had happened to the Yongxing Trading Company. For the sake of caution, I didn't contact Ren Lizhi. Instead, I captured a few guards from Yongxing Trading Company. After asking, I found out that Ren Lizhi and the original owner had been captured by a person called Shi Ling. Humph, he actually dared to provoke people from our Godly Devil Hall. This Shi Ling must die!"

"Sir, you're really observant. With your Illusionary Electric Eel, this Shi Ling won't be able to escape even if he has wings!"

"That's right! He really has the guts to go against us. There's only one outcome for him, and that's death!"

"Look! The Illusionary Electric Eel is starting to swim in that direction. Shi Ling and the others must be nearby. It won't be long before their bodies float up."

...

After Yun Chujiu and the others dove into the water, they heard the sound of people diving into the water. They knew that those people had also jumped into the water.

Just as they were about to show off their skills, they saw those people climb onto a big boat. Yun Chujiu was ready to take Yu Hai and the others away from this area of water.

Unexpectedly, the water ahead suddenly churned and a huge monster quickly swam toward them.

Its body flickered with a five-colored light, and its two big whiskers were more than three feet long.

An Illusionary Electric Eel? Yun Chujiu had read about this Illusionary Electric Eel in the sea creature journal before. The most powerful thing about this Illusionary Electric Eel was that it could emit electric currents. Although many sea creatures had strong bodies, they were also afraid of the Illusionary Electric Eel's electric currents. Therefore, even sea creatures of the same level were not willing to provoke the Illusionary Electric Eel.

Yun Chujiu gestured to Yu Hai and the others, indicating for them to move further away. She would take care of the Illusionary Electric Eel.

Yu Hai and the others originally did not want to leave, but Yun Chujiu glared at them. They could only swim further away for the time being. They would be on standby as they witnessed the situation. If Yun Chujiu was no match for them, they would come forward to help.

"Hey! Little loach, I think you've lived for quite a long time, right? If you don't want to die, hurry up and get back. Otherwise, I'll make you into a braised eel!" Yun Chujiu recalled the braised eel that Di Beiming had once brought to her—the meat was tender and springy, and it was very delicious. This fellow shamelessly wiped her saliva.

The Illusionary Electric Eel was a little dumbfounded. 'Is there something wrong with this little human weakling's brain?! A fifth level Spirit Cultivator dares to talk to me like that? It's just you, and you dare to want to eat me!? HMPH! Wait until Master is done searching for the things, then you'll be my snack! Moreover, I'm an Illusionary Electric Eel, not a little loach!

Yu Hai and the others behind him also had stiff expressions. 'Sect Master, what situation are we in? Are you still thinking of eating? This is a Tier 13 Illusionary Electric Eel! Although you're quite powerful, that is electric current! With your small body, just a beam of electric current is enough to electrocute you to death!'

"Little loach, I heard that these two whiskers of yours are very tough. Quickly bite them off and give them to me. I will use them as swings," Yun Chujiu said with a smile.

The Illusionary Electric Eel was so angry that its two whiskers fiercely lashed at Yun Chujū. 'Damn it! How dare you talk about my whiskers? I'll beat you to death!'

"Tsk! If you don't want to give them to me, then don't. Is there a need to beat me like this? How stingy! You said that you're a dignified Tier 13 sea creature, but you acknowledged a bastard as your master. I'm embarrassed for you. If I were you, I would've strangled myself to death with my whiskers! Your life is a disgrace to the world of sea creatures!"
