

The Yun Family's Ninth Child is an Imp! Chapter 832

Whether it was the Illusionary Electric Eel or Yu Hai and the others, they all had a feeling that something was wrong. Were they ignorant, or was this young man not human at all? There were so many electric currents that even a person at the peak of the ninth level of the Spirit Emperor realm would not be fine. How could he be fine?!

Yun Chujiu raised the corner of her mouth at the Illusionary Electric Eel. "Little loach, it's my turn now, right? Little Jiu Thunderbolt!"

As Yun Chujiu spoke, she shot a few small purple lightning bolts at the Illusionary Electric Eel. The small lightning bolts slowly moved toward the Illusionary Electric Eel.

When the Illusionary Electric Eel saw that Yun Chujiu could shoot out purple lightning bolts, it was shocked. It thought to itself, 'Is it because he has the Heavenly Thunder Root Spirit that he isn't afraid of my electric currents?

'Hmph! Although my electric current won't cause any harm to you, your lightning is simply too weak. Not only is it thin, but its speed is also so slow. It can't cause any harm to me at all.'

The Illusionary Electric Eel had the intention to get back at them, so it did not dodge at all. Instead, it stretched out its two long whiskers and lashed them at the small lightning.

The small lightning did not dodge at all. It looked as if it was going to let them whip it as they pleased. The two long whiskers lashed out directly. Then, Yu Hai and the others saw the Illusionary Electric Eel continuously rolling in the water, and the two long whiskers were actually broken in half...

Originally, Yun Chujiu's purple lightning bolts alone were not that powerful. However, they could not withstand the Illusionary Electric Eel's courting death. When it used its whiskers to hit them, it used all its strength. Together, the two of them had caused their current situation.

Yun Chujiu was also stunned. “Ugh, I didn’t expect it to be so uncontrollable. I’ll work harder!” This fellow kept waving her hands, and several small lightning bolts struck toward the Illusionary Electric Eel.

This time, the small lightning bolts changed their previous slow attitude, and struck toward the Illusionary Electric Eel with the speed of lightning.

The Illusionary Electric Eel’s whiskers were broken, and it was mad with anger. This time, it did not dare to fight with force. When it saw the small lightning bolts coming, it quickly swam to the side. It did not expect that the small lightning bolts would also turn and chase after it.

The Illusionary Electric Eel was not feeling good!

F*ck!

Who could tell it why the Lightning would turn? It was impossible!

The Illusionary Electric Eel was so scared that it quickly swam to the side. However, its body was too big. Although its head dodged, its tail could not dodge nimbly enough and it was hit by a few small lightning strikes.

Although its skin was rough and its flesh was thick, it still trembled in pain. Its heart was broken—the electric current attack had no effect on the little pervert in front of it.

It could have used its whiskers to attack, but the whiskers had been cut off and was still bleeding. Not to mention the presence of the human little pervert, even if it did not move, it would still be in pain.

Yun Chujiu took the chance. To her, this Illusionary Electric Eel was just a bigger loach. As long as she did not let it bite her, it would not be a threat to her.

Yun Chujiu smiled sweetly at it. "Little loach, I still have a big killer move. Watch carefully!"

The Illusionary Electric Eel could not help but shiver. This little pervert's smile was so scary. What was he going to do?

Yun Chujiu waved her hand and continued to strike out the little lightning. At the same time, she summoned five swords and stabbed them at the Illusionary Electric Eel.

Using the five swords was encouraging a bad habit. This little demon even said that she would break the contract with them after the enchantment. Ah! The more she used them, the more comfortable she became. She had no intention of breaking the contract at all! They could be considered to have boarded a pirate ship!
