

## The Yun Family's Ninth Child is an Imp! Chapter 836

Fan Zhen stood dumbfounded. The poison in the arrows formed by the secret technique of the Red Spider Lily was extremely potent. How was Yun Chujiu still fine?

Just as Fan Zhen felt bewildered, Yun Chujiu directed five flying swords to stab at him. What the f\*ck! How dare you pepper me with poisonous arrows? I'll kill you!

Although the Illusionary Electric Eel's primordial spirit was damaged, it wished that it could vent all the pain that it had suffered for so many years on Fan Zhen. It also shot a beam of electricity at Fan Zhen.

Fan Zhen's heart tightened. He could still gain the upper hand if he fought Yun Chujiu alone. However, with the Illusionary Electric Eel around, even if its primordial spirit was damaged, he was not a match for them. For now, the only thing he could do was to escape.

When Fan Zhen thought of this, he squeezed out another drop of blood from his index finger and once again used the secret technique of the Red Spider Lily. A huge Red Spider Lily shimmered in front of him and Fan Zhen disappeared into thin air.

Yun Chujiu frowned. This technique of the Godly Devil Hall was really strange. It could actually instantly make a person disappear? Did he hide or escape?

"Little Loach, did that bastard hide or escape? Make one of your whiskers stand if he hid. If he escaped, make it two whiskers." Yun Chujiu was on full alert, wary that Fan Zhen still hid nearby. If he ambushed her, it would be bad for her.

The Illusionary Electric Eel stuck out two of its whiskers, indicating that Fan Zhen had already run away.

Yun Chujiu frowned. Fan Zhen actually left his subordinates behind and ran away by himself? The people from the Godly Devil Hall were indeed ruthless.

“Little Loach, help me take down these people. I will reward you with delicious food later!” Yun Chujiu was a foodie so she subconsciously thought that the others around her were all foodies too.

The Illusionary Electric Eel rolled its eyes, but it still swam over and helped Yu Hai and the others take care of those silver-masked men.

Yun Chujiu thought happily in her heart. There were so many silver-masked men. She only needed to capture a few of them alive to get more information. That was great!

However, what Yun Chujiu never expected was that those silver-masked men suddenly bled to death from their seven orifices!

What was going on?

They had all taken poison to commit suicide?

Even so, they wouldn't have died so neatly? What was going on?

Now was not the time to delve further. Yun Chujiu asked Yu Hai and the others to put away the silver-masked men's corpses, then, she asked the Illusionary Electric Eel, “Little Loach, are you going to stay in this lake or follow me? I'll send you back to the sea when there's an opportunity. Even if you don't recognize me as your master, you can still enter my spirit Beast Bag. Don't worry, I didn't kill you before, and I won't kill you in the future.”

The Illusionary Electric Eel felt that it was better to recuperate for some time now that its spiritual sense was damaged. Moreover, if it followed this little monster, he might even be able to get a tonic pill. Therefore, it nodded and agreed to go with Yun Chujiu.

After the Illusionary Electric Eel entered Yun Chujiu's spiritual beast bag, it finally realized that something was wrong. The little monster did not kill it previously because she was not yet strong enough to. However, it was different now. Did it just walk into a trap? F\*ck! It was tricked again!

Yun Chujiu asked Yu Hai and the others to clean up the battlefield. She swam back to the place where it had fought with the Illusionary Electric Eel just now. It also stored the two broken whiskers of the Illusionary Electric Eel into its storage ring. These two whiskers were enough to make a swing.

After everything was done, everyone finally surfaced and found an open space. Yun Chujiu summoned her flying spiritual device and everyone boarded the flying tool to continue their journey.

Only a few of Yu Hai's men were slightly injured. The rest of them were unharmed. They admired Yun Chujiu very much. If he had not jumped into the lake and not used his sharp tongue to provoke the Illusionary Electric Eel, they would already be dead, Sect Master was too awesome!
