

## The Yun Family's Ninth Child is an Imp! Chapter 846

Yun Chujiu rolled her eyes and came up with an idea. When she threw the Purple Lightning bolt again, she deliberately made threw it at a slightly crooked angle. As expected, she felt that the Black Bead had loosened its grip on her finger.

Yun Chujiu was ecstatic in her heart, but she did not show it on her face. She continued to throw lightning bolts at the Black Bead with lightning, but she deliberately threw it at increasingly different angles and felt the Black Bead's grip getting looser.

Finally, after Yun Chujiu threw another lightning bolt, the Black Bead completely let go of Yun Chujiu's finger and flew towards the lightning bolt to swallow it up.

The first thing Yun Chujiu did was to wrap her right hand with a cloth. She then took out a large kitchen knife and slashed at the Black Bead!

She was furious! As she slashed, she cursed, "You bastard! You actually want to suck my blood. I'll chop you to death! You like to eat my little lightning bolts huh? I'll let you eat your fill once I chop you into 360 pieces!"

The Black Bead did not move at all and allowed Yun Chujiu to slash at it. It was as if the blood-sucking and lightning-devouring were all just an illusion.

Yun Chujiu held the large kitchen knife and slashed it for a while. Only then did she calm down. She looked down and saw that the Black Bead was unharmed. The large kitchen knife did not change either. It seemed that she had exerted herself in vain!

“Grandfather, this Black Bead is too strange! You should keep it. If I keep it, I’m afraid I’ll die of blood loss one day! Why don’t you just throw it into the river? I don’t think it’s useful at all,” Yun Chujiu said angrily.

Yun Xiaotian also did not expect the Black Bead to cause such a commotion. However, they said that this Black Bead could only be activated by the Yun family bloodline, so why did it react to Little Jiu’s blood?

No matter the reason, it was a Yun family heirloom, so it definitely could not be thrown away. It was better to put it away somewhere out of reach. Thinking of this, Yun Xiaotian used his spiritual sense to try to put the Black Bead into his storage ring but found that it would not go back inside.

Yun Xiaotian was dumbfounded!

It would not go back into his storage ring? What was the meaning of that? Had it meant that the Black Bead had recognized its master!

“Little... Little Jiu, this... This Black Bead has probably recognized you as its Master!” Yun Xiaotian said with a confused look. Even he felt that it was very strange. His family had always said that only the Yun family bloodline could do such a thing. Could it be that the ancestors were lying to him?

“Grandfather, what did you say?” Yun Xiaotian was already confused, and Yun Chujiu even more so!

“Grandfather tried to put it into the storage ring, but it wouldn’t go in. That means it recognized you as its master.”

“What? This bastard recognized me as its master? Grandfather, are you kidding? Didn’t you say that only the Yun family’s bloodline can activate this Black Bead?”

Yun Xiaotian coughed dryly, "That was the information that was passed down from the ancestors! But, the reality right in front of us now says otherwise. Not only did it suck your blood, but now I can't even keep it in my storage ring. This means that it has already recognized you as its master."

"Hmph! Even if it recognized me as its master, I wouldn't want this blood-sucking pearl! Grandfather, you can put it anywhere you want! I don't want it! Oh right, grandfather, I thought of a very crucial question. Do you think I'm an illegitimate daughter? When my father went on a journey to train himself, he accidentally conceived me with my mother. He was afraid that you would be angry, so he pretended to have found me while on a mountain. Grandfather, I might be your biological granddaughter!"

"This is impossible! Your father is a clean person, why would he lie to me?" Yun Xiaotian retorted unhappily.

"Grandfather, but the ancestors of the Yun family can't lie, right? Since this Black Bead can not recognize an outsider as its master, yet it recognized me as its master now, which means that I am a member of the Yun Family! Or am I actually eldest uncle's biological daughter? Eldest uncle was afraid that eldest aunt would be angry, so he asked my father and mother to adopt me?"

Yun Xiaotian felt that his old heart was about to collapse!

Although he felt that it was ridiculous, how could he explain what was happening in front of him now? Could it be that Little Jiu was really his biological granddaughter?
